Gentilmen/Ladies: I live in McCall, Id. Last yr. over my and I'm sure many others objection my electric bill went from (cold weather) \$80 to \$95 to \$125 to \$135 this with the same kw usage as the previous yr. Now an extra \$30 to \$40 may not mean much compared to millions but I only make \$20,000 per. yr. and \$30 per month, to me , is a pay cut. Now I get a note along with my bill that Idaho Power is asking for more. An additional \$6.3 million for FCA, that will no doubt become a perminant fee. A fee for smart meters , again perminant, and \$5.4 million for themselves in the form of pension increases. My God , I Have to fund my own retirement, if I stole it from my neighbors I would go to jail. Idaho Power is a monopoly in McCall, I have to pay their rates if I should want to have lights and hot water. I'm deprived of the right to vote with my feet to shop around and purchase my electricity elsewhere.

That's where you, the PUC, are supposed to advocate on my behalf. Idaho Power is claiming these requests are necessary costs of future business. Well, the last time I checked they are a publicly traded business, aren't expansions and inprovrments supposed to be funded by the owners? Shouldn't these expences be coming out of stockholder dividends? Isn't this the stockholders business and thus their responsibility, and not the consumer that is and always will be over a barrel?

Eanough already. I notice that no one has bothered to mention that electricity has not become more expencive to produce nor is there a shortage.

SO PLEASE, NO MORE RATE INCREASES !!!!

Marty Glaser McCall, Id.

Daytime Telephone: 208-324-8771
Contact E-Mail: dkwdtrl@gmail.com
Name of Utility Company: Idaho power
Add to Mailing List: yes

Please describe your comment briefly:

I just opened my electric bill, and to no surprise to me a proposed rate increase AGAIN!! Taken each proposal one by one; FCA What this tells me is save energy every way we can and when Idaho power doesn't make as much monies wwe'll just raise the rates , great incentive for me!!
AMI; New meters which will 'reduce operating costs' looks like another rate increase next year.
Pension funding' 'pensions help attract and retain high quality employees' lets put an add out for high quality,skilled and knowledgeable people without a pension fund and I'll bet people from around the country will flock here for a job even without a pension.
As for me being on totally clean 100% electric, how can I continue to keep paying for it. This sounds more like a wall street bailout.!
