Please describe your comment briefly:

Please allow construction of the Cedar Creek Wind Project and future wind projects in Idaho. With the projected world population, we (all Americans) will need all the power sources we can to support the future power demands. This includes energy from wind turbines, coal plants, nuclear plants, solar panels, geothermal, hydroelectric plants, natural gas, etc.

Thank you very much.

Please describe your comment briefly:

I am writing in support of the Cedar Creek Wind Project. I am a wind energy technician student at the College of Southern Idaho. These projects are what will some day employ me in the field. The more of these projects that are operating will enable me to live and work in Idaho. In the above mentioned case pending, I urge the Commission to approve the project. Thank you for your time and consideration of my comments.

Sincerely,

Kyle Brown
