Idaho Public Utilities Commission
472 W. Washington
Boise, ID 83721

To Whom it May Concern,

We use Rocky Mountain Power in our home. We are concerned about all the raises they have received and now asking for another. They also have three addition charges on our bill which is like ten more dollars more. Please think carefully before you let them have another raise. We are on a fixed income and it make it very hard when we do not get raises.

Thank you for your work.

Sincerely,

Sheron Rock

Re: UTILITY RATE INCREASE

Enough is enough!!

No more rate increases for Rocky Mountain Power.
Living on a fixed income does not allow for changes
on a tight budget.

We have not received an increase in our Social Security for (2) years
and there is a possibility of premium increases in the
coming year.

Now there is the threat of reducing our benefits!

We cannot afford increases of any kind for any reason.

RECEIVED

Dear Public Utilities Commission,

2011 JUL 13 AM 8:33

I am writing in regard to Rocky Mountain Power Company asking for yet another rate increase in their power rates. They have had two rate increases granted to them in less than one year and as a residential consumer I want to voice my objection to granting them yet another rate increase at this time. I am outraged at the audacity of this power company asking for so many increases in such a short time. Please have the consumer's interest at heart and deny this untimely increase. In this economy it is hard enough to get by financially without being locked into using a utility company that cannot manage its financial responsibility any better than Rocky Mountain Power is doing.

Thank you for your concern for the residents in this area.

To Whom it may concern:

I'm protesting another rate increase to Rocky Mt. Power.

It is my thinking that they need to tighten their belts,

like so many of the rest of us have had to at this

time. Many are living on

a set income and with every

thing they buy raising in price

it's too much! Thank you,
Marilyn Avery Jones
