Please describe your comment briefly:

I received a form letter from Rocky Mountain Power stating their excuses for wanting to raise their rates. They said DVRs and flat screen TVs use more electricity, of which I DO NOT have. I do have energy efficient light bulbs throughout the house and cut every corner I can since I am a senior citizen on a fixed income. I do not buy their feeble excuses to raise rates. If people use more electricity, it automatically generates more money for Rocky Mountain Power. I still vote No on their proposed rate increase.
