

Dear Sir;

I am a Rocky Mt. customer,
and have read several articles
where Rocky Mt. Power feels led
to increase our rates.

RECEIVED
2011 DEC 14 PM 3:30
IDAHO PUBLIC
UTILITIES COMMISSION

Only lately has it been brought
to the public's attention that
Warren Buffett, who purchased
the utility has been losing money.
When the investment was
profitable his gains were never
mentioned. Now that he is not
raking in the profits he wants
to transfer the losses to the Idaho
Utah and Wyoming subscribers.
Blame Obama!

Do we just stand by and let him
rake us over because of a "bad"
investment?

Besides since when has the demand
for "green energy" decreased?
We as users of the utility

feel we need to be protected
from Mr Buffett's scheme.

Besides who can afford it
more a billionaire or the little
people. He can take the losses
along with his profits.

Sincerely,

Joella Brady

PUBLIC

I am a Rocky Mtn Power customer & have read several articles where RMP feels led to raise our rates. Only recently has it been brought to the public's attention that Warren Buffet, who purchased the utility has been losing money. He signed off on a \$6.1 billion investment anticipating Obama's Cap + trade legislation. Before the downdraft in his purchase, nothing was noticed when he was raking in the profits. Now he wants to transfer the losses to the Id, WY, & UT Customers. Do we just stand by & let him rake us over because of a bad investment? Since when has the demand for "green energy" dropped or decreased? We feel we need to be protected from such increases.

Subject: rate hikes

Please help in keeping Rocky Mountain Power's rates in check. I understand that a rate increase is in the works, and would appreciate it if you could help us, the consumers, in NOT allowing this rate increase to take effect.

Thank you for your help in this matter!
Rhonda and Dennis Merrill
