IDAHO PUBLIC
UTILITIES COMMISSION

To Whom It May Concern,

In regards to opening up schedule 23 and the recent Docket #PAC-E-16-07; the City of Lava Hot Springs would like to advocate to the Idaho Public Utility Commission that due to the costs of electricity the city is in a difficult situation and would like to get some relief by increasing the cap on the net metering. The City of Lava Hot Springs believes the Public Utility Commissions interpretation of the tariff is not appropriate for Lava and there should be a modification for an increase in the allowed kilowatt production.

Since at this time the docket is open, the City of Lava Hot Springs would like the Public Utility Commission to take a second look at the docket and consider increasing the cap on the net metering to provide the city some relief and allow the city to direct funds to more immediate needs that could be taken care of if allowed to further offset their electrical draw.

This request would sincerely assist the City of Lava Hot Springs and further our success at being a large attraction for Idahoan and non Idahoan residents.

Sincerely,

A handwritten signature in black ink that reads "T. Paul Davids, III". The signature is stylized and includes the Roman numeral "III" at the end.

T. Paul Davids, III
Mayor
