On March 30, 2006, My Choice Communications, Inc. dba MCCI, (MCCI; Company) filed an Application with the Commission for a Certificate of Public Convenience and Necessity to provide resold and/or facilities-based local exchange services in Idaho exchanges currently served by Qwest. With this Order the Commission authorizes the use of Modified Procedure to process the Company's Application as more fully set forth below.

THE APPLICATION

YOU ARE HEREBY NOTIFIED that according to the Company's Application MCCI is a privately held corporation organized under the laws of the State of Idaho. The Company's principal place of business is located at Pocatello, Idaho. MCCI proposes to offer residential and small business basic exchange service as well as business class local loop connectivity and transmission necessary to connect business customers to interexchange carrier points of presence.

YOU ARE FURTHER NOTIFIED that the Application states that the Company does not anticipate installing any physical plant at this time, and will lease Qwest's unbundled network element platform. MCCI states that as the market for its services and its business plans dictate that it may eventually lease or deploy its own switches within existing carrier hotels or other leased premises, but no physical construction of fiber optic or copper cables is anticipated, now or in the future. The Company is currently negotiating an interconnection agreement with Qwest. The Application contains a written statement that the Applicant is familiar with the Commission rules and agrees to comply with them. A proposed initial tariff was filed with the Application, and a replacement tariff was filed on June 20, 2006.
