**Importance:** High

Hi Joani,

Thank you for the update and the Safety Valve request. I am forwarding this on to the Commission's Secretary as it is going to need a case number assigned to it. As soon as that happens then I will proceed with the Staff review/decision memo and present to the Commissioner's. It should only take a couple of weeks if everything is in order.

Thanks again

Carolee

Hi Carolee -

*It was nice talking with you last week. As I mentioned during our conversation, I am in need of a waiver or email approval from you that will allow us to temporarily have two LRNs, per switch, per Lata in order to transfer and migrate our ID resources from one OCN to another. We will only have two LRNs for a short period - just long enough to complete the transfer and migration. Below is a description of our project and why we need two LRNs in order to complete our migration.*

*36Onetworks was acquired by Zayo Group (which also owns Onvoy) in December 2011. Onvoy has been using the legacy 36Onetworks (Zayo) OCN 785D. Onvoy is working on a large corporate roll up project that, once complete, will allow us to migrate all of the resources currently assigned to the legacy 36Onetworks OCNs to the Onvoy OCNs, and we will no longer use the legacy 36Onetworks (Zayo) OCNs. We plan to have everything in place and complete by July 1, 2014. In order to do this without impeding our ability to continue to do business*
