BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

**IN THE MATTER OF QWEST
CORPORATION'S REVISIONS TO ITS
STATEMENT OF GENERALLY
AVAILABLE TERMS AND CONDITIONS
(SGAT) PURSUANT TO 47 U.S.C. § 252(f)**

CASE NO. QWE-T-03-24

**NOTICE OF FILING FIFTH AMENDED,
THIRD REVISION EXHIBIT A**

Qwest Corporation ("Qwest"), through its undersigned counsel, submits this Notice of Filing Fifth Amended, Third Revision Exhibit A dated April 26, 2004 (hereinafter referred to as "amended Exhibit A"). Qwest respectfully requests that the Commission allow this amended Exhibit A to go into effect pursuant to 47 U.S.C. § 252(f)(3)(B). The amended Exhibit A includes corrections to Qwest's previous Exhibit A filings and changes that Qwest believes will make the Exhibit A a more useful resource. In this latter respect, Qwest has established formatting and sequencing for products that will be used as a uniform template for all Exhibit A's across its fourteen-state region and that will better align with the format of its Statements of Generally

Available Terms (SGATs) across its region. The following provides a high-level summary of the changes being made. Qwest is providing a “clean” and “redline” version of the amended Exhibit A, the latter of which depicts each change made in the exhibit as compared with the Fourth Amended Third Revision Exhibit A filed January 16, 2004.

1. Corrected Rates: The rates provided in Sections, 9.3.1, 9.3.3, 9.3.4, 9.3.5, 9.3.7, 9.4, 9.10, 9.11.2, 9.23.2, 9.23.3, 9.23.4, 9.23.6, 9.23.7, 9.24, and 10.7 and noted as “TELRIC rates not reviewed in a cost docket” did not properly reflect the TELRIC rates for those elements proposed in Qwest’s testimony in Docket No. QWE-T-01-11 filed November 12, 2003.

2. Numbering and Re-numbering: Amended Exhibit A differs from its predecessors in that each element is numbered to make it easier to locate. This numbering protocol is being adopted across the fourteen Qwest states and will facilitate wholesale customers’ use of Exhibit A information as they locate and compare the same or similar products in the other states in which they do business.

3. Rate Column Format: The rate columns have been reformatted to be consistent throughout the document. The “Recurring, Fixed” column is now simply titled “Recurring.” All non-distance sensitive rates are located in the “Recurring” column. The column labeled “Recurring, per Mile” contains distance sensitive rates for those elements that have a distance-sensitive component. There is no change to the “Nonrecurring” column.

4. Exhibit A Notes: Two “Note” columns have been added to align notes to the recurring, recurring per mile, and nonrecurring rates. Notes are located in these columns to identify the source of each rate. For example, in Section 9.6.1, the rate of

\$241.74 is accompanied by a note containing the letter “B” in the nonrecurring note column, which indicates this rate in was approved in Order No. 29408 in Docket QWE-T-01-11. Under 9.6.1.1, the “Recurring” rate of \$24.67 and the “Recurring, per Mile” rate of \$0.29 are accompanied by notes in their respective columns, once again indicating with a “B” that the rates were approved in Order No. 29408.

In addition, notes have been enhanced to provide additional detail regarding the source of each rate. With regard to rates that were voluntarily reduced during the 271 process, the notes now provide the dates of each of the reductions and the versions of the Exhibit A in which the reduced rates first appeared.

5. Intentionally Left Blank: This phrase is used throughout amended Exhibit A to preserve numbering consistency across the region.

6. Elements Added: Channel regeneration was mistakenly removed from the version of Exhibit A filed January 14, 2004. It has been added in amended Exhibit A in sections 8.1.7 and 9.21, although the rates for the service have been reduced to zero. Qwest reserves the right to revert to the contractual rates for the service, upon appropriate notice to affected customers.

Similarly, the recurring charge for the Network Interface Device (NID) was mistakenly removed. It has been added to amended Exhibit A in section 9.5 although as the accompanying note indicates, Qwest has not implemented this charge in its billing system. However, Qwest reserves the right to assess the charge in the future.

In section 9.3 Field Connection Point (FCP) Reclassification was added as section 9.3.7.1. This element was approved in Order No. 29408 but mistakenly never added to the current Exhibit A.

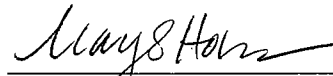

Section 9.3.5 "Trouble Isolation Charge" has been eliminated because it is duplicative of the charges found in section 9.20.

9. Corrections and Clarifications to Product Offerings: In section 9.23.6.2 and 9.23.6.3 the Exhibit A previously provided only a non-recurring charge labeled "Loop Mux 2-Wire Analog" and "Loop Mux 4-Wire Analog." These sections have now be expanded to clarify that the recurring rates associated with these charges are the de-averaged loop charges. Section 9.23.7, relating to Enhanced Extended Loop (EEL) has been similarly restructured for clarification.

10. Shared Services: The amended Exhibit A combines Loop Sharing, UNE-P Line Splitting and Loop Splitting under one section 9.4 thereby incorporating elements that were previously found in sections 9.23 and 9.25.

Qwest respectfully requests that the Commission allow the attached Third Revision Fifth Amended Exhibit A to go into effect pursuant to 47 U. S.C. §252(f)(3)(B).

Dated this 26th day of April, 2004.
