1. APPLICATION AND REFERENCE

1.1 APPLICATION OF CATALOG

This Catalog contains the rates and regulations applicable to Private Line Transport Services, furnished by Qwest Corporation, hereinafter referred to as the Company, throughout the portion of the Spokane, Washington LATA, served by it in the State of Idaho.

The procedures which will be followed by the Company in rendering service are set forth in 2., General Regulations, and 3., Rate Regulations, following, and 2.6, Definitions, which explains phrases and terms used.

The regulations and rates are applicable to all intraLATA/Intrastate Private Line Transport Services furnished by the Company. Interstate service offerings may be found in Qwest Corporation Tariff F.C.C. No. 1 (F.C.C. No. 1).

The Company will make every reasonable effort to provide the services delineated in Section 4, following, upon reasonable notice of request for the service from the customer. All rates and charges shown in this Catalog provide for the furnishing of service where suitable facilities are available. Where special construction of channel facilities is necessary, special construction charges may apply. Regulations governing the determination of charges for special construction in connection with Private Line Transport Services furnished by the Company are found in F.C.C. No. 2, Special Construction.

The rates set forth in this Catalog assume the facilities provided are in areas served by the Company. Should another Exchange Telephone Company be involved in the provision of Private Line-type service, the service will be provided consistent with the guidelines resulting from Case No. U-1500-162 before the Idaho Public Utilities Commission.

Each page of the Catalog bears a designating number, the date issued and date upon which it became effective.

The index of sections contains a complete list of all effective Private Line Transport Services offerings and includes the titles, page numbers and other information necessary for their identification.

1.4 CATALOG FORMAT

1.4.1 LOCATION OF MATERIAL

1. Section 1 provides the following for all of the sections in this Catalog:
 - Subject Index - an alphabetical listing to find the desired section.
 - Table of Contents - A numerical listing to find the desired section and page.
2. Each individual section in the Catalog provides a Subject Index for the material located within that section.
3. Obsolete Service Offerings

Obsolete service offerings are identified in the Catalog by adding 100 to the current section number, i.e., obsolete items from Section 4, Channels, would be found in Section 104, Obsolete Channels. This Section is then filed behind Section 4.

1.4.3 RATE TABLES

Within rate tables, four types of entries are allowed:

- Rate Amount

The rate amount indicates the dollar value associated with the service.

- A dash "-"

The dash indicates that there is no rate for the service or that a rate amount is not applicable under the specific column header.

- A footnote designator "[1]"

The footnote designator indicates that further information is contained in a footnote.

- ICB

The acronym "ICB" indicates that the product/service is rated on an individual case basis.

1.4.4 USOC COLUMN

Within USOC columns, two types of entries are allowed:

- USOC

The three- or five-character code for the product or service.

- N/A

The "N/A" indicates that there is no applicable USOC.
