

BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

**IN THE MATTER OF THE APPLICATION OF)
SYRINGA NETWORKS, LLC FOR) CASE NO. SZ9-T-06-1
BROADBAND INVESTMENT TAX CREDIT)
CERTIFICATION) ORDER NO. 29987
_____)**

On February 21, 2006, Syringa Networks, LLC (“Syringa” or “Company”) filed an Application requesting that the Commission find the Company eligible to receive an Idaho Investment Tax Credit. Pursuant to *Idaho Code* § 63-3029I, an Idaho taxpayer may receive a tax credit for installing “qualified broadband equipment” in Idaho. To be eligible for the tax credit, the taxpayer must obtain from the Commission an Order confirming that the installed equipment meets the definition of qualified broadband equipment set out at *Idaho Code* § 63-3029I(3)(b). Briefly, qualified broadband equipment must be capable of transmitting signals at a rate of at least 200,000 bits per second (bps) to a subscriber and at least 125,000 bps from a subscriber. In the case of a telecommunications carrier, the qualified broadband equipment must also “be necessary to the provision of broadband service and an integral part of a broadband network.” *Idaho Code* § 63-3029I(3)(b)(i). In this Order, we find that Syringa has installed qualified broadband equipment.

THE APPLICATION

Syringa’s Application indicates that the majority of its 2005 expenditures were for the completion of work started in previous years, including the installation of its fiber optic cable network, digital switching equipment, SONET multiplexers, testing equipment, modular routers, and supporting power supply and software. Syringa offers high-speed transport, frame-relay, and other related services to customers at transmission rates of 1.544 Mbps and higher. The Company also states that all of its customers are Idaho subscribers. Syringa states that it invested approximately \$500,000 in qualifying broadband equipment during calendar year 2005.

STAFF REVIEW

To implement its responsibilities under *Idaho Code* § 63-3029I, the Commission issued Procedural Order No. 28784 in July 2001. This Order identifies information that must be included in an Application for a broadband tax credit. Once the information has been filed, then the Commission Staff reviews the Application and submits a recommendation to the

Commission. Staff reviewed the list of broadband equipment submitted by Syringa. Staff believes that the equipment is “necessary for the provision of broadband services and an integral part of a broadband network.” *Idaho Code* § 63-3029I(3)(b)(i). Consequently, Staff recommended that the Commission issue an Order approving Syringa’s Application. Staff further recommended that the Commission forward the approving Order, along with a copy of the original Application, to the Idaho Tax Commission.

FINDINGS

Having reviewed Syringa Networks, LLC’s Application and Staff’s recommendation, we find that the Application for a qualifying broadband equipment Order should be granted. The Company has demonstrated that the installed broadband equipment identified in its Application conforms to the qualifying requirements of *Idaho Code* § 63-3029I(b). We further find that, as configured, the installed equipment is an integral part of a broadband network necessary to deliver broadband services to Idaho customers. *Idaho Code* § 63-3029I(3)(b)(i). It is therefore appropriate for the Commission to issue this Order confirming that Syringa has installed qualified broadband equipment as a pre-condition to seeking an Idaho broadband tax credit. The Commission makes no findings regarding the costs of the installed broadband equipment.

ORDER

IT IS HEREBY ORDERED that Syringa Networks, LLC’s Application for an Order certifying that it has installed qualifying broadband equipment is approved.

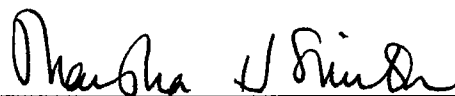

IT IS FURTHER ORDERED that a copy of this Order and a copy of the Application be served upon the Idaho State Tax Commission.

THIS IS A FINAL ORDER. Any person interested in this Order (or in issues finally decided by this Order) may petition for reconsideration within twenty-one (21) days of the service date of this Order. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration. See *Idaho Code* § 61-626.

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this 6th
day of March 2006.

PAUL KJELLANDER, PRESIDENT

MARSHA H. SMITH, COMMISSIONER

DENNIS S. HANSEN, COMMISSIONER
