<b>WARNER TELECOM FOR A WAIVER OF THE )</b>	<b>CASE NO. TWT-T-04-1</b>
<b>NANPA'S DENIAL OF APPLICATION FOR )</b>	
<b>NXX NUMBERING BLOCKS FOR ADA )</b>	
<b>COUNTY. )</b>	<b>ORDER NO. 29412</b>
<b>)</b>	

---

On December 17, 2003, Time Warner Telecom (TWT) filed a Petition with the Commission for authorization to use new telephone numbers to provide service to its customer Boise State University. TWT originally filed its Application with the North American Numbering Plan Administrator (NANPA), as required by the Federal Communications Commission. Numbering requests filed with NANPA may be appealed to the state commission if they are denied by NANPA.

TWT's Application requests authorization to use seven 1000 block numbers to enable its customer Boise State University to expand its services. Specifically, the numbers would be used to serve BSU's campuses in Boise and Nampa, Idaho, and enable TWT to maintain a five digit-dialing pattern on BSU's network. As is required, TWT in its application to NANPA completed a "month to exhaust" worksheet, but NANPA denied TWT's application on the grounds that TWT had not met the six-month exhaust criteria as set forth in NANPA's guidelines for each rate center. In its Application to the Commission, TWT asserts that NANPA's denial interferes with its ability to serve its customers within the State of Idaho.

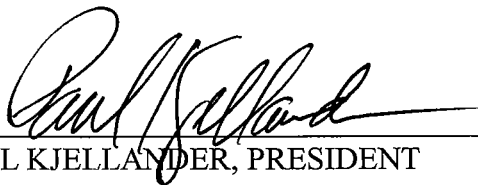

TWT's Application was presented to the Commission for consideration during its December 29, 2003, decision meeting. The Commission determined to approve TWT's Application in order to enable TWT to provide adequate telecommunication to BSU. In assigning new numbers, TWT should continue to follow the FCC numbering guidelines by assigning numbers in 1000 blocks only as demand requires before opening new 1000 blocks within an assigned prefix. Unused 1000 numbering blocks will be returned to the NANPA within six months.

**ORDER**

IT IS HEREBY ORDERED that NANPA provide to Time Warner Telecom seven 1000 numbering blocks for use by TWT to serve Boise State University. In assigning the numbers, TWT shall, consistent with FCC numbering guidelines, exhaust the numbers in the first 1000 numbering block before providing numbers in the second 1000 numbering block.

THIS IS A FINAL ORDER. Any person interested in this Order (or in issues finally decided by this Order) or in interlocutory Orders previously issued in this Case No. TWT-T-04-1 may petition for reconsideration within twenty-one (21) days of the service date of this Order with regard to any matter decided in this Order or in interlocutory Orders previously issued in this Case No. TWT-T-04-1. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration. See *Idaho Code* § 61-626.

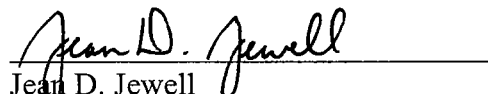

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this 8<sup>th</sup> day of January 2004.
