NEW CUSTOMER CONNECTION CHARGES

For a first time connection to the Diamond Bar Estates Water Company system when an existing Service line and meter base are already in place on the property the cost is \$310.00

If there is no service line tap to the Company's water mains or meter box in place on the property the cost is \$2500.00

When the installation of a new service line requires the Company to bore a line under a road, all additional costs will be charged to the customer on a time and materials basis. The new customer may, at their option, hire a Diamond Bar Water Company approved independent contractor to perform the road bore and connection. The Company will require such contractor to show proof of bonding, licensing and insurance and have at least five (5) years of experience at hot tapping water lines. Diamond Bar Estates Water Company's Water Master will inspect and approve all the work being performed to insure compliance with the Company's installation requirements.
