One solution Terra Grande  
Water Co. could use is: (Low Pennington  
St.)

① enforce odd, even watering!

② Charge \$60 more a month  
for every household that  
has a swimming pool,  
garden and large lawn.

I see water spilling  
over into the street every  
day. I also note, NOT one  
household on this street  
abides by the odd/even watering  
Rule,

my grandmother said to me  
when I was a kid:

Water is A Very Precious  
Commodity = Never WASTE  
it.

I will NOT Help To pay  
for another pump like I  
did before, because I  
use precious little water -  
The pump wears out from  
over use by people on my  
St who use it 24/7.

Thank you,  
Mrs. Juma Clark Penninger 1887
