IDAHO PUBLIC
UTILITIES COMMISSION

- Under PUC Case No. TGW-W-05-1, ORDER NO. 29735. IT IS FURTHER ORDERED that Terra Grand shall notify its customers that the cost of water system consumption will be shared by all customers and inform them of the need to control their water consumption.
- Some lots are larger, some families are larger, and some people care more about their landscaping than other, so utilization of water is not fair.
- The initial water line from United Water is a 4" and the further from their line to the end of the subdivision the lower the water pressure.
- The fair solution to this problem will be for Terra Grand Water to install water meters on each property.

Jim Storey, President
Pioneer Neighborhood Association.

Attached signatures of residents and property owners:

Subj: Petition for water meters.
