I Live alone
I Am almost 70
I Am disabled
I need a walker
but can't afford one
I don't drive

I feel Terra Grande
water and Boise City
water should put
meters on our water
lines. Id power &
out, Gas Have meters.
That way we pay
for only the gas,
power, we use.

IT is a Real
Hardship on me
to pay almost 100
a mo for water
I am on very
low soc. security.
And I use very
little water

PUC.

I would like to know why we (the people in Terra Grande subdivision) have to pay for upgrades on the 3 wells, Barbara Child owns when we were forced on United Water after a unhealthy substance was found in Wells?

My bill that came yesterday (8/1/05) was *96.⁸⁹ because we are one meter for whole subdivision, that is ridiculous I am living on *800.⁵⁵ check and that is destroying me

Barbara Child has owned these wells for decades and I am sure is financially able to pay for the repairs

We were forced on limited
Water and the ones who are
using a lot of water
are imposing on us who
are trying to minimize use
of it.

I have called her to have
her get after the ones I see
letting water run in one
selling all day while gone
& she did nothing.

I can't move & I can't
pay these kind of bills.

It's easy for you to say
we have to pay for repairs
when we are not there
to defend ourselves.

You & everyone are for
owners of every thing (business)

I spent my own meter

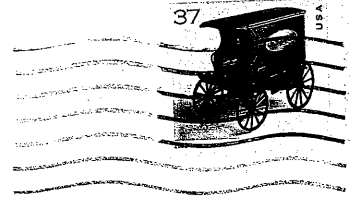

NOW

PS utilities are
taking all my
income -

absolutely sincere
