To Whom It May Concern,

When you made your decision to deny "Level Pay" for customers of United Water, you weren't considering your citizens who are on fixed incomes.

I have to water my lawn. I have no garden or flower beds and I still have two water bills in the summer around \$150 each. Its hard to find extra money to pay these.

This is something you should consider. Level pay would be easier.

Sincerely
Fern M. Meyers
