ACCEPTED FOR FILING

FEB 1 - 2013

Boise, Idaho

ANPI Business, LLC
7460 Warren Parkway
Suite 218
Frisco, TX 75034

This tariff contains the regulations and rates applicable to the furnishing of intrastate interLATA and intraLATA resale common carrier communication service by ANPI Business, LLC* ("Carrier") for calls which originate and terminate within the State of Idaho. This tariff is on file with the Idaho Public Utilities Commission and copies may be inspected, during normal business hours, at the Company's principal place of business at 7460 Warren Parkway, Suite 218, Frisco, TX 75034.

REQUIRED IDAHO NOTICES

The included tariff language does not constitute a determination by the Commission that a limitation on liability imposed by the Carrier should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause.

Carrier will give at least 10 days notice to customers and the Idaho PUC before increasing rates or other changes. The notice to customers will be either individual notices or a public notice in the newspapers in Carrier's Idaho service areas.

2. Tracking and Numbering

The following symbols are used for the purposes indicated below:

- D - Delete or discontinue
- I - Increase in rate or charge
- L - Moved to another tariff location
- M - Moved from another tariff location
- N - New
- R - Decrease in rate or charge
- T - Change in text, but no change in rate or charge or regulation

2.1 Check Sheets - when a tariff (price sheet) filing is made with the IPUC, an updated Check Sheet accompanies the filing. The Check Sheet lists the sheets contained in the filing with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

2.2 Sheet Numbering - Sheet numbers appear in the upper left corner of each page. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 6 and 7 would be 6.1.

2.2.1 Sheet revision numbers also appear in the upper left corner of each page. These numbers are used to determine the most current sheet version on file with the IPUC. For example, the 4th revised sheet 6 cancels the 3rd revised sheet 6. Consult the check sheet for the sheet currently in effect.

3. Service Area

3.1 Zone Telecom, Inc.'s telecommunications services are available to business customers throughout the State of Idaho, except in areas in which the Local Exchange Carrier (LEC) does not have equal access, unless otherwise stated.

4. Deposit and Advance Payment

(T)

4.1 Zone may, in order to safeguard its interests, require Customer to make a cash security deposit, irrevocable letter of credit or other means prior to or any time after the provision of Services to Customer (collectively called "Deposit"). The Deposit, to be held by Zone as a guarantee or security for the payment of charges incurred, may be drawn upon by Zone for any and all past due amounts, and may be increased at any time upon Zone's request and in its sole discretion. Zone's obligation to provide Services is contingent upon an initial and continuing credit approval by Zone. Additional Deposit amounts may be required after Services commence pending continuing review of issues which include but are not limited to Customer's monthly revenue, payment history, financial condition and as security against disputed amounts. Customers will be provided a receipt for paid deposits and said deposits will accrue interest.

6.3 Timing of Calls

6.3.1 Long distance usage charges are based on the actual usage of Zone Telecom, Inc. network. The Company will determine that a call has been placed through industry standard answer detection methods, including hardware answer detection.

6.3.2 Chargeable time for a call ends upon disconnection by either party.

6.3.3 For billing provided directly by Company, the minimum call duration and initial period is 18 seconds for all intrastate direct dialed calls unless otherwise specified by this tariff. For billing provided directly by Company, the additional period is measured and rounded to the next higher 6 second increment unless otherwise specified by this tariff.

6.3.4 For billing provided by the Local Exchange Carrier of the Customer, the minimum call duration and initial period is 60 seconds (1 minute) and the additional period is measured in 60 second (1 minute) increments.

6.3.5 No charges apply for incomplete calls. If a Customer believes he or she has been incorrectly billed for an incomplete call, the Company will, upon notification, investigate the circumstances of the call and issue a credit when appropriate.

6.4 Authorization Codes - At additional cost, and subject to availability, the customer may use authorization codes to identify the users or user groups on an account. The numerical composition of such codes shall be set by the carrier to assure compatibility with carrier's accounting and automation systems and to avoid duplication of codes.

6.5 Mileage Determination

SEP 11 2000

Boise, Idaho

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call. The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. Zone Telecom, Inc. uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in their NPA-NXX V & H Coordinates Tape and NECA Tariff FCC No. 4.

FORMULA:

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

- 6.6 Service Contract - Service is provide to Qualifying Business Customers by the acceptance by Zone Telecom, Inc. of a customer's Letter of Agency agreeing to receive service.
- 6.7 Outbound - Communications may originate from any area served by an equal access central office within the State of Idaho. All services are available twenty four hours per day, seven days per week.
- 6.8 Inbound Switched Service (800 or 888) - Receives inbound intrastate calls on regular local telephone lines.
- 6.9 Inbound Dedicated Service (800 or 888) - Allows inbound intrastate calls to come in on same Dedicated Access Line using 800 or 888 number(s).

14. Zone Prepaid Long Distance Service**14.1 Zone Prepaid Long Distance Service Description**

Zone prepaid long distance service is an optional 1+/011+ direct dial long distance service wherein customers submit payments in advance.

The advance payments are placed in the consumer's account and are depleted as long distance charges, applicable surcharges, regulatory assessments, taxes and fees are accrued. If during any month, the total of charges exceed the monthly advance payments, the customer will hear an announcement that there is no credit available, and the customer will not be able to complete 1+/011+ calls until additional advance payments are received. In addition, several minutes in advance of the depletion of the prepayment, the customer will be advised via announcement. If a consumer does not utilize the full amount of the monthly prepayment, the remaining balance will carry over to subsequent months until the balance is depleted.

14.2 Billing

Charges are billed in full minute increments.
