		Corporations Cor	ntrolled by Respondent		
1. Report below the names	of all corporations	, business trusts, a	nd similar organizations, co	ontrolled directly or in	directly by

respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote. 2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held,

naming any intermediaries involved.

3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.

4. In column (b) designate type of control of the respondent as "D" for direct, an "I" for indirect, or a "J" for joint control.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.

2. Direct control is that which is exercised without interposition of an intermediary.

3. Indirect control is that which is exercised by the interposition of an intermediary that exercises direct control.

4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

#### Important Changes During the Quarter/Year

Give details concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Answer each inquiry. Enter "none" or "not applicable" where applicable. If the answer is given elsewhere in the report, refer to the schedule in which it appears. 1. Changes in and important additions to franchise rights: Describe the actual consideration and state from whom the franchise rights were acquired. If the franchise rights were acquired without the payment of consideration, state that fact. 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization. 3. Purchase or sale of an operating unit or system: Briefly describe the property, and the related transactions, and cite Commission authorization, if any was required. Give date journal entries called for by Uniform System of Accounts were submitted to the Commission. 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization. 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and cite Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc. 6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Cite Commission authorization if any was required. 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments. 8. State the estimated annual effect and nature of any important wage scale changes during the year. 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year. 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest. 11. Estimated increase or decrease in annual revenues caused by important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected. 12. Describe fully any changes in officers, directors, major security holders and voting powers of the respondent that may have occurred during the reporting period. 13. In the event that the respondent participates in a cash management program(s) and its proprietary capital ratio is less than 30 percent please describe the significant events or transactions causing the proprietary capital ratio to be less than 30 percent, and the extent to which the respondent has amounts loaned or money advanced to its parent, subsidiary, or affiliated companies through a cash management program(s). Additionally, please describe plans, if any to regain at least a 30 percent proprietary ratio. 1. None 2. None 3. None 4. None 5. None 6. None 7. None 8. None 9. None 10.None 11. Revenue decreased due to Purchased Gas Adjustment by \$12,800,000 12. Change in Officers: Retired Officer: Michael Huntington Title: VP - Marketing and External Affairs Effective: 09/30/07 **Retired Officer: Susan Ernest** Title: VP - Administrative Services Effective: 12/29/06 13. #### **Notes to Financial Statements**

Provide important disclosures regarding the Balance Sheet, Statement of Income for the Year, Statement of Retained Earnings for the Year, and Statement of Cash Flow, or any account thereof. Classify the disclosures according to each financial statement, providing a subheading for each statement except where a disclosure is applicable to more than one statement. The disclosures must be on the same subject matters and in the same level of detail that would be required if the respondent issued general purpose financial statements to the public or shareholders.
 Furnish details as to any significant contingent assets or liabilities existing at year end, and briefly explain any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Also, briefly explain any dividends in arrears on cumulative preferred stock.

3. Furnish details on the respondent's pension plans, post-retirement benefits other than pensions (PBOP) plans, and post-employment benefit plans as required by instruction no. 1 and, in addition, disclose for each individual plan the current year's cash contributions. Furnish details on the accounting for the plans and any changes in the method of accounting for them. Include details on the accounting for transition obligations or assets, gains or losses, the amounts deferred and the expected recovery periods. Also, disclose any current year's plan or trust curtailments, terminations, transfers, or reversions of assets.

4. Where Account 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these item. See General Instruction 17 of the Uniform System of Accounts.

5. Explain concisely any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. Disclose details on any significant financial changes during the reporting year to the respondent or the respondent's consolidated group that directly affect the respondent's gas pipeline operations, including: sales, transfers or mergers of affiliates, investments in new partnerships, sales of gas pipeline facilities or the sale of ownership interests in the gas pipeline to limited partnerships, investments in related industries (i.e., production, gathering), major pipeline investments, acquisitions by the parent corporation(s), and distributions of capital.

7. Explain concisely unsettled rate proceedings where a contingency exists such that the company may need to refund a material amount to the utility's customers or that the utility may receive a material refund with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects and explain the major factors that affect the rights of the utility to retain such revenues or to recover amounts paid with respect to power and gas purchases.

8. Explain concisely significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and summarize the adjustments made to balance sheet, income, and expense accounts.

Explain concisely only those significant changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
 For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading.
 Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.

11. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year end may not have occurred.

12. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable

and furnish the data required by the above instructions, such notes may be included herein.

1. Balance Sheet - Accounts 253 Other Deferred Debits -

Intermountain makes certain adjustments to deferred income taxes to reflect the effects of regulation. As a result, Intermountain has recorded deferred regulatory assets of \$3,425,000, \$2,983,000, and \$4,620,000, and deferred regulatory liabilities of \$8,332,000, \$7,046,000, and \$10,997,000 at September 30, 2007, 2006, and 2005, respectively. The net regulatory liabilities are reported in "Regulatory liability for income taxes."

2. See Page 108 for disclosure contingency -

3. Pension Plans & PBOP -

In September 2007, Intermountain adopted the recognition provisions of SFAS No. 158, *Employers' Accounting for Defined Benefit Pension Plans and Other Postretirement Plans — an amendment FASB Statements No. 87, 88, 106, and 132R.* 

The following table at September 30, 2007, presents the incremental effect of applying Statement 158 on individual line items in the balance sheets of Intermountain:

Name of Respondent Intermountain Gas Company	This Report is: (1) <u>X</u> An Original (2) A Resubmission	Date of Report (Mo, Da, Yr) 03/28/2008	
Not	tes to Financial Statements		
	Before		After
	Application of Statement 158		plication of Itement 158
	(th	ousands of dollars)	
Other deferred charges Other liabilities	\$ 450 5,084	\$357 357	\$ 807 5,441

In accordance with regulatory accounting treatment under SFAS 71, amounts that otherwise would have been recorded in accumulated other comprehensive income have been recorded as a regulatory asset for the postretirement plans.

The measurement provisions of SFAS 158 are not required to be adopted until 2009 and require that a company measure its plan assets and benefit obligations as of its balance sheet date. Industries already uses a September 30 measurement date for its plans, so adoption of the measurement provisions of SFAS 158 is not expected to have a material effect on industries' results of operations or cash flows.

Intermountain accrues postretirement benefit costs, including retiree health care costs over each retiree's working life. For years prior to 1996, postretirement costs were recorded at the time the benefits were provided. Postretirement benefit costs earned, but not accrued, prior to 1996 are being amortized over a 20-year period. The trend rate for medical care costs was 10.0%, which is assumed to decrease ratably over the next ten years to 5.0% and remain at that level.

Intermountain's policy is to fund its obligations for postretirement health care benefits in an amount equal to its book expense, up to the maximum amount deductible for income tax purposes. For the years ended September 30, 2007, 2006, and 2005, Intermountain accrued expenses of \$992,000, \$821,000, and \$873,000, respectively, of which it funded \$535,000, \$707,000, and \$960,000 respectively, into the Trust. The plan participants paid premiums to the Trust of \$100,000, \$91,000, and \$81,000, for the years ending September 30, 2007, 2006, and 2005, respectively. Benefits paid to participants for the years ended September 30, 2007, 2006, and 2005, were \$487,000, \$384,000, and \$544,000, respectively. The values of plan investments as of September 30, 2007, 2006, and 2005, were \$10,039,000, \$8,076,000, and \$7,645,000, respectively. The Trust invests funds not otherwise required to meet current benefit requirements in an investment fund which is composed primarily of U.S. based publicly traded stock. For the years ended September 30, 2007, 2006, and 2005, the annualized returns on assets invested in the Trust were approximately 19.0%, 7.1%, and 25.0%, respectively.

On December 8, 2003, the President signed into law the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the "Act"), which introduces a prescription drug benefit under Medicare starting in 2006. The Accumulated Postretirement Benefit Obligation ("APBO") and accrued benefit costs in the financial statements and the accompanying notes reflect the effects of the Act on the Plan.

The accrued postretirement health care benefit obligation is included in "Other long-term liabilities" on the balance sheets at September 30, 2007, 2006, and 2005. The funded status of the plan is as follows (dollars in thousands):

	s Report is: <u>X</u> An Original A Resubmission	Date of Report (Mo, Da, Yr) 03/28/2008	Year/Period of Repo	
Notes to				
	2007	2006	2005	
Accumulated postretirement health care benefit obligation Fair value of plan assets	\$(11,353) 10,039	\$(11,740) 	\$(11,184) 7,645	
Funded status of plan	<u>\$ (1,314</u> )	<u>\$ (3,664</u> )	<u>(3,539</u> )	
Accrued benefit obligation recognized on the balance sheets	<u>\$ 1,314</u>	<u>\$ 500</u>	<u>386</u>	
Weighted average assumptions as of September Discount rate Expected return on plan assets	er 30: 5.95 % 8.00	5.95 % 8.00	5.70 % 8.00	

The expected investment returns of 8% are based on the historic long term average return of U.S. Equity Securities. This long term average return is the expected long term investment return for plan assets.

Intermountain's assumed long-term asset allocation and weighted-average asset allocations at September 30, 2007, 2006, and 2005, by asset category are as follows:

Asset Category			 2007	2006	2005
Equity securities		 	 39 %	37 %	35 %
Equity exchange - t	raded funds	 	 61	62	64
Other		 	 -	1	1
Total		 	 100 %	100 %	100 %

Intermountain's assets are invested in the Trust.

Investments will be made for the sole interest of the participants and beneficiaries of the programs participating in the Trust. Accordingly, the assets of the Trust shall be invested in accordance with these objectives:

- a. To ensure assets are available to meet future obligations of the participating programs when due.
- To earn the maximum return that can be realistically achieved in the markets over the long term at a specified and controlled level of risk in order to minimize future contributions.
- To invest the assets with the care, skill, and diligence that a prudent person acting in a like capacity would undertake.

Intermountain expects to contribute approximately \$1,000,000 to its postretirement benefit program in 2008.

The following table summarizes the expected future postretirement benefit payments for the years ended September 30 (dollars in thousands):

**Employee Pension Plan** — Intermountain's Employee Pension, Savings and Profit Sharing Plan is a defined contribution plan under Internal Revenue Code Section 401(k) which covers substantially all of the employees of Intermountain, except those who are currently members of the collective bargaining unit and are covered under its separate pension plan. Intermountain contributes 6% of gross pay into the participant's individual account. In addition, Intermountain will match \$1.00 of each \$2.00 of pre-tax contributions made by the participant, up to 4% of the participant's gross pay. Intermountain's contributions to the Plan were \$1,124,000, \$961,000, and \$875,000, for 2007, 2006, and 2005, respectively.

### 4. Not applicable

5. Statement of Retained Earnings -

Under the terms of the Senior Debentures, the respondent's retained earnings are restricted as to the payment of cash dividends on common stock. At September 30, 207 \$23,028,000 of the respondent's retained earnings are available for the payment of dividends.

Intermountain Gas Company	(2) _ A Resubmission	03/28/2008	2007/Q4

## **General Description of Construction Overhead Procedure**

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the Uniform System of Accounts.

3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

1 (a)(b) - Engineering, supervision, administration, and equipment costs are charged directly to construction clearing accounts based on direct labor housrs and dollars released to construction.

1(c) - Using a standard rate schedule these charges are cleared directly to the construction work in progress account from the construction daily time reports and contractors' invoices.

1(d)(e) - rates are the same

1(f) - Indirectly assigned

3 - Not applicable

Name of Respondent Intermountain Gas Company	This Report Is: (1) X An Original (2) A Resubmiss	Date of Report (Mo, Da, Yr) ion 03/28/2008	Year/Period of Repor End of 2007/Q4

## Securities Issued or Assumed and Securities Refunded or Retired During the Year

 Furnish a supplemental statement briefly describing security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.
 Provide details showing the full accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gain or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.

3. Include in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the principal underwriting firm through which the security transactions were consummated.

4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, cite the Commission authorization for the different accounting and state the accounting method.

5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as details of the transactions whereby the respondent undertook to pay obligations of another company. If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

No applicable transactions

The Respondent provides deferred income taxes in this account for all timing differences between book and tax accounting which are not directly related to property. This accounting was approved by the IPUC in Order No. 11507. Beginning in 1983, pursuant to IPUC Order No. 17701, the Respondent does not provide for deferred State income taxes on its utility operations with the exception of purchase gas adjustment timing items. For 2006, the items on page 277 generated deferred tax provisions in this account (see page 261A).

(a) Represents adjustments to the return as filed.

(b) Represents amounts tranferred from Acct. 282.

(c) Represents adjustment to record FASB 109.

(d) Represents amounts booked to set up state deferred tax

Name of Respondent		This Report Is:	Date of Report	Year/Period of Repor	
Intermountain Gas Company		(1) X An Original (2) A Resubmission	(Mo, Da, Yr) 03/28/2008	End of 2007/Q4	
	Auxiliary	Peaking Facilities	· · · · · · · · · · · · · · · · · · ·		

1. Report below auxiliary facilities of the respondent for meeting seasonal peak demands on the respondent's system, such as underground storage projects, liquefied petroleum gas installations, gas liquefaction plants, oil gas sets, etc.

2. For column (c), for underground storage projects, report the delivery capacity on February 1 of the heating season overlapping the year-end for which this report is submitted. For other facilities, report the rated maximum daily delivery capacities.

3. For column (d), include or exclude (as appropriate) the cost of any plant used jointly with another facility on the basis of predominant use, unless the auxiliary peaking facility is a separate plant as contemplated by general instruction 12 of the Uniform System of Accounts.

## System Maps

Furnish five copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
 Indicate the following information on the maps:

(a) Transmission lines.

(b) Incremental facilities.

(c) Location of gathering areas.

(d) Location of zones and rate areas.

(e) Location of storage fields.

(f) Location of natural gas fields.

(g) Location of compressor stations.

(h) Normal direction of gas flow (indicated by arrows).

(i) Size of pipe.

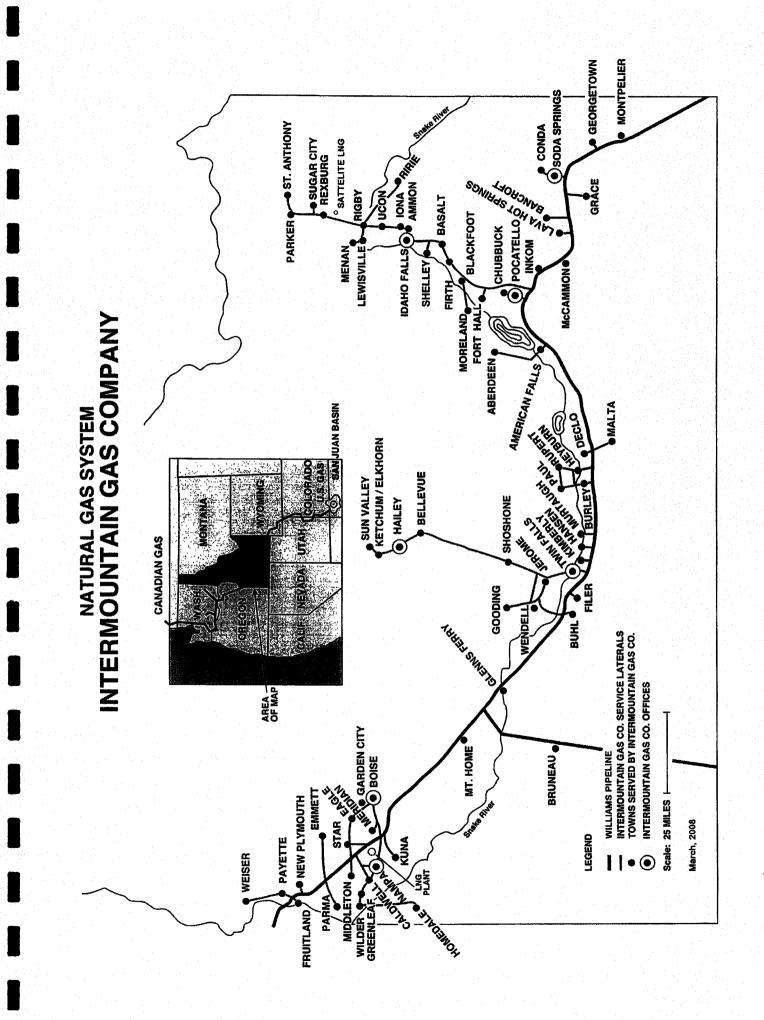

(j) Location of products extraction plants, stabilization plants, purification plants, recycling areas, etc.

(k) Principal communities receiving service through the respondent's pipeline.

3. In addition, show on each map: graphic scale of the map; date of the facts the map purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.

4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the

maps to a size not larger then this report. Bind the maps to the report.
