DEFINITIONS

 SECRETARY

Access Line

The circuit, which travels from the central office to the subscriber's premise terminating at the protector, which provides direct access to the local exchange and the toll switching networks.

Analog Signal

An electrical signal that varies in either amplitude or frequency in a continuous manner, in imitation of (analogous to) a primary signal, such as voice.

Central Office (CO)

A switching unit providing telecommunications services to the public, designed for terminating and interconnecting lines and trunks.

Channel

The electrical path provided by the Telephone Company between two or more locations. Connection for the Carrier's switch or point of connection to the Serving Wire Center.

Channel Performance

Conditioning to extend signaling on a two-wire analog channel when the Serving Wire Center is not the Dial Tone Office.

Circuit

A Channel used for the transmission of electrical energy in the furnishing of telephone service.

Connecting Company

A corporation, association, partnership, or individual owning or operating one or more exchanges and with whom traffic is interchanged.

Connectivity

The equipment at the Dial Tone Office which connects the channel to the Telephone Company's switch.

Contract

The service agreement between a subscriber and the Telephone Company under which services and facilities are furnished in accordance with the provisions of the Tariffs applicable.

DEC 28 '00

JAN 1 - '01

DEFINITIONS (Cont'd)

*John W. Jewell* SECRETARY

Customer Provided Equipment (CPE)

Devices, apparatus and their associated wiring provided by a subscriber for use with facilities furnished by the Telephone Company.

Dedicated Transport

When the Serving Wire Center is not the Dial Tone Office, Dedicated Transport is the transmission path for the switched traffic between the two offices.

Dial Outpulsing

Analog equipment at the Dial Tone Office which transmits the digits of the dialed number to the Carrier on land to mobile calls.

Dial Tone Office

The Telephone Company central office in which the numbers assigned to the Carriers are housed, which may be different than the Serving Wire Center.

Direct Dialing

The capability for a subscriber to dial anywhere in the United States with a series of numbers without operator assistance.

Exchange Area

The territory served by an Exchange.

Extended Area Service (EAS)

Area throughout which an exchange service subscriber makes local calls.

Extension and P.B.X. Station Mileage

The charges made for the additional circuit required to furnish such stations beyond the allowable distance from the main station or PBX switchboard.

Extension Station

An additional station connected on the same circuit as the main station and having the same telephone number as the main station.

DEC 28 '00

JAN 1 - '01

DEFINITIONS (Cont'd)

*Jean W. Jewell* SECRETARY

Extra Listing

Any listing of a name or information in connection with a subscriber's telephone number beyond that to which he is entitled in connection with his regular service.

Foreign Exchange Directory Listing

An alphabetical and directory listing in the directory of an exchange other than the exchange in which a subscriber is furnished local service.

Individual Line

An exchange line designed for the connection of only one access line.

Installation Charge

A non-recurring charge made for the placing or furnishing of telephone equipment, which may apply in place of or in addition to Service Connection Charges and other applicable charges for service or equipment.

Inter-exchange Carrier (IXC)

Denotes any entity or corporation engaged for hire in intrastate communication between two or more exchanges.

Key System

An arrangement of key-equipped instruments capable of providing intercommunication and multi-trunk communication with the general exchange and inter-exchange network.

Local Channel

That portion of a channel which connects a station to the inter-exchange channel; it also applies to a channel connecting two or more stations within an exchange area.

Local Exchange Service

Telephone service furnished between subscriber's stations located within the same local service area.

Local Message

A communication between subscribers' stations within the same Exchange Area.

DEC 28 '00

JAN 1 - '01

DEFINITIONS (Cont'd)

*Jean W. Jewell* SECRETARY

Local Service Area

That geographical area throughout which a subscriber obtains telephone service without the payment of a toll charge.

Main Station

A suitable telephone instrument or station which is connected to a network access line through a central office and has a unique telephone number.

Mobile Unit Number

The number assigned by the Carrier to its patron's wireless message receiving and/or sending device. This may either be a telephone number or another number used only by the carrier's network.

Network Interface Device

A company provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the customer.

Number Activation

The act of translating telephone numbers in the Dial Tone Office to allow routing to the appropriate trunk group.

Number Reservation

The assigning of sequential numbers without activation of the assigned numbers.

NXX

The three digit prefix (to a standard seven digit local telephone number) of 10,000 telephone numbers within a given area code (NPA) of the North American Numbering Plan Party Line

A central office line designed for the connection of more than one network access line.

Point(S) of Connection (POC)

The connection point(s) between the Carrier and the Telephone Company; the technical interface(s), test point(s) and point(s) for operational division of responsibility.

DEFINITIONS (Cont'd)

Premises

All of the buildings or the adjoining portions of a building occupied and used by the subscriber; or all of the buildings occupied and used by the subscriber as a place of business or residence, which are located on a continuous plot of ground not intersected by a public highway or thoroughfare.

Primary Station

Synonymous with Main Station.

Private Branch Exchange (PBX)

An arrangement of equipment used by a subscriber and connected directly to a central office by means of trunk access lines, from which connection is made to stations at various locations or customer premises, thereby providing telecommunications between these stations and also communication with the general exchange system.

Private Line

A circuit provided to furnish communication only between the two or more telephones directly connected to it, and not having connection with either central office of PBX switching apparatus.

(D)  
—  
(D)

Public Telephone

An exchange station either attended or equipped with a coin-collecting device, which is installed for the convenience of the public at a location chosen or accepted by the Telephone Company.

(D)  
—  
(D)

Right of Way

Real property or an interest in real property, usually in a strip, acquired for or devoted to a telecommunications facility.

DEC 28 '00

JAN 1 - '01

DEFINITIONS (Cont'd)

*Jan W. Jewell* SECRETARY

Serving Wire Center

The term "Serving Wire Center" denotes the Telephone Company central office from which dial tone for local exchange service would normally be provided to the customer's premises.

Subscriber

A person or agency subscribing for telephone service. As used in this Tariff, a separate subscriber is involved at each location, or continuous property, where service is furnished. One individual or firm therefore may be considered as two or more separate subscribers, even in the same Exchange. The privileges, restrictions, and rates established for a subscriber to any class of service are limited to the service at one location; no group treatment of service at separate locations furnished to one individual or firm, is contemplated or to be implied, except when definitely provided for in the schedules.

Tariff

The document filed by the Telephone Company with the Public Utilities Commission which lists the communication services offered by the Telephone Company and the associated rates and charges.

Telecommunication Facility

Any telecommunication cable, line, fiber, wire, conduit, inner-duct, access manhole, handhold, hut, pedestal, pole, box, transmitting equipment, receiving equipment, power equipment or other equipment, system and device used to transmit, receive, produce or distribute via wireless, wire line, electronic, or optical signal for communication purposes.

Telecommunication Facility Provider

Any owner or operator of a telecommunication facility.

Telephone Station

A suitable telephone instrument, consisting of a transmitter, receiver, and associated apparatus, so connected as to permit transmitting of and receiving telephone messages.

Toll Message

A message from a calling station to a station located in a different local service area.

Toll Service

Telephone service rendered by the Company or inter-exchange carrier between patrons in different local service areas in accordance with the rates of the toll carrier.

DEC 28 '00

JAN 1 - '01

DEFINITIONS (Cont'd)

*Jan H. Jewell* SECRETARY

Traffic

“In” is land to mobile. “Out” is mobile to land.

Trunk

A telephone communication channel between (a) two ranks of switching equipment in the same central office, (b) between central office units in the same switching center, or (c) between two switching centers.

DEC 28 '00

JAN 1 - '01

GENERAL RULES AND REGULATIONS

*Jean W. Jewell* SECRETARY

APPLICATION

The rules and regulations specified herein apply to the intrastate services and facilities of CAMBRIDGE TELEPHONE COMPANY, hereinafter referred to as the Company. Failure on the part of the subscribers to observe these rules and regulations of the Company, after due notice of such failure, automatically gives the Company the authority to discontinue the furnishing of service.

In the event of a conflict between any rate, rule, regulation or provision contained in these General Rules and Regulations and any rate, rule, regulation or provision contained in the specified tariffs, the rate, rule, regulations or provision contained in the specific tariffs shall prevail.

These tariffs cancel and supersede all other tariffs of the Company issued and effective prior to the effective date of these tariffs.

EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rates.
- (T) Signifies a change in text but no change in rate, treatment or regulation.

GENERAL RULES AND REGULATIONS (Cont'd)

*Jean H. Jewell* SECRETARY

OBLIGATION OF COMPANY

1. Availability of Facilities

The Company's obligation to furnish telephone service is dependent upon its ability to secure suitable facilities and to provide such service without unreasonable expense.

2. Interruption of Service

An allowance will be made upon notice and demand to the Company for interruption of service not due to subscriber negligence.

The company will credit a customer's account by an amount equal to the monthly rate for one month of basic exchange service (Network Access Line Service), if the customer reports an out-of-service condition which has deteriorated service to the extent that the customer cannot make local calls or cannot receive local calls or cannot use the service for voice-grade communications because of cross talk, static, or other transmission problems, and service is not restored (1) within sixteen hours after the report of the outage if the customer notifies the Utility that the service outage creates an emergency for the customer or (2) within twenty-four hours after the report of the outage if no emergency exists, except that outages reported between noon on Saturday and 6:00 p.m. on the following Sunday must be restored within forty-eight hours or by 6:00 p.m. on the following Monday, whichever is sooner.

The credit will not apply to "out-of-service" conditions resulting from the willful neglect, misuse or abuse by the customer. The credit will not apply to "out-of-service" conditions where the outage is in the customer's inside wire or customer's premises equipment. This credit will not apply to "out-of-service" conditions resulting from natural disasters, or circumstances beyond control and knowledge of the utility and affecting large groups of customers. This credit also will not apply to "out-of-service" conditions where service has been temporarily or permanently discontinued for nonpayment of bills.

3. Directory Errors and Omission

The Company endeavors to correctly list customers, their telephone numbers and other information in the local telephone directory. The Company will waive the tariff rate for special directory services in cases in which the company provides information for a directory listing and an error occurs.

JAN 1 - '01

GENERAL RULES AND REGULATIONS (Cont'd)

*John D. Jewell* SECRETARY

OBLIGATION OF COMPANY (Cont'd)

4. Transmitting Messages

The Company does not transmit messages. If, because of transmission difficulties, the operator repeats messages between subscribers, the operator is deemed acting as an agent of the subscriber.

5. Use of Connecting Company Lines

Lines of other connecting companies may be use to reach points outside the Company area when suitable arrangements can be made.

6. Defacement of Premises

The Company will repair or replace any defacement or damage of property due to installation, existence, or removal of Company property, when the damage is the result of negligence of the Company.

7. Adjustment of Charges

In case of over billing, a refund will be made by the Company for the full amount of excess charges when the amount can be determined; when the amount cannot be determined from available records, the maximum refund will not exceed the estimated over billing over a three year period.

In case of under billing, the company reserves the right to back bill for the deficiency charges up to a period of three years.

USE OF SERVICE AND FACILITIES

1. Ownership and Use of Equipment

All equipment and lines furnished by the Company are the property of the Company even though located on the subscriber's premises for which the Company has been granted a right of way. Company agents or employees shall have the right to enter said premises at any reasonable hour to install or maintain equipment, make collections, or remove equipment.

The Company may refuse to install or maintain any service at locations that are hazardous to Company employees. If such service is furnished, the subscriber may be required to install and maintain such service, holding the Company harmless from any claims for damage by reason of the installation and maintenance of this service.

DEC 28 '00

JAN 1 - '01

GENERAL RULES AND REGULATIONS (Cont'd)

*John W. Jewell* SECRETARY

USE OF SERVICE AND FACILITIES (Cont'd)

2. Interconnection Policy

Subscriber-provided terminal equipment may be used and subscriber-provided communication systems may be connected with the facilities furnished by the Company for telecommunications services subject to regulations outlined in other parts of this tariff. In case any unauthorized attachment is made, the Company shall have the right to disconnect, suspend, or terminate the service.

3. Use of Subscriber Service

Subscriber telephone service is furnished only for the use by the subscriber, his family, and associates. The Company may refuse to install or permit such service to remain on premises of public or semi-public character.

The equipment may be installed, at such locations provided the service is located so it is not accessible for public use.

4. Tampering with Equipment

The Company may refuse to furnish telephone service when company equipment shows any evidence of tampering for the purpose of obtaining service without payment of charges applicable to the service rendered by the Company.

5. Use of Improper Language or Impersonation of Another

The Company may refuse service to anyone who uses or permits abusive or obscene language over Company facilities or impersonates another individual with fraudulent or malicious intent.

6. Governmental Objections to Service

The Company may refuse service or discontinue service to anyone upon objection to such service by or behalf of any governmental authority.

7. Indiscriminate Use of Facilities

The Company may refuse to furnish service or require upgrading of services provided to any subscriber, who allows indiscriminate use of Company facilities, except in case of emergencies.

DEC 28 '00

JAN 1 - '01

GENERAL RULES AND REGULATIONS (Cont'd)

*Juan W. Jewell* SECRETARY

ESTABLISHMENT AND FURNISHING OF SERVICE

1. Application for Service

Application for service must be made on the Company's standard form, which becomes a contract when accepted in writing by the Company or upon establishment of service. The subscriber may be required to pay in advance all charges for the first billing period and connection charge if applicable. The conditions of such contracts are subject to all provisions of this and other applicable tariffs. Requests for additional service may be made verbally, if provided in the original contract, and no advance payment will be required. A move within the exchange area is not considered to terminate the contract and orders for such may be made verbally.

2. Telephone Numbers

When existing service is continued for a new customer, the telephone number assigned to the former customer may be retained by the new customer only: (a) if the former customer consents and properly notifies the company in writing; and (b) if arrangements acceptable to the company are made by the new customer to pay all outstanding charges against the service to the company.

3. Alterations

The subscriber agrees to notify the Company of any alterations, which will necessitate changes in the Company's configuration of facilities or wiring; and the subscriber agrees to pay the Company's current charges for such changes.

4. Payment of Service

The subscriber is required to pay all charges for services rendered by the Company, both exchange and toll in accordance with provisions contained elsewhere in this tariff. The subscriber is responsible for all charges for service rendered at his telephone, including collect charges.

5. Maintenance and Repairs

The Company shall bear the expense of all repairs and maintenance of its facilities, except where damage or destruction of its facilities is due to the gross neglect of the subscriber. The subscriber may not rearrange, remove, or disconnect any Company facilities without consent of the Company.

DEC 28 '00

JAN 1 - '01

GENERAL RULES AND REGULATIONS (Cont'd)

*Juan A. Jewell* SECRETARY

ESTABLISHED AND FURNISHING OF SERVICE (Cont'd)

6. Line Extensions

Lines will be extended to permanent customers in accordance with the guidelines established in the Construction Charge section.

Where required by the conditions, applicants may be required to provide to the Company suitable private right-of-way.

7. Unusual Installation Costs

When special conditions or special requirements of the subscriber involve unusual construction or installation costs, the subscriber may be required to pay a reasonably proportionate share of such cost. Title to all facilities constructed and paid for wholly or in part by the subscriber is vested in the Company.

8. Rights of Way and/or Easements

The applicant shall, if necessary to provide the requested service, grant to the Company or Telecommunications Facility Provider a right-of-way and easement over, across and under the property of Applicant to construct, operate and maintain the communications lines and the system of the Company to the place requested for services. The Applicant further grants the Telecommunications Facility Provider access to the right of way for the installation, operation, and maintenance of Telecommunication Facility.

TELEPHONE DIRECTORIES

The Company may furnish to its subscribers, without charge, only such directories as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.

DEC 28 '00

JAN 1 - '01

GENERAL RULES AND REGULATIONS (Cont'd)

*Jean W. Jewell* SECRETARY

ESTABLISHMENT AND MAINTENANCE OF CREDIT

1. Deposits

The Company adopts by reference the Telephone Customer Relations Rule codified under IDAPA 31.41.01 and all amendments to those rules that may be hereafter adopted by the Idaho Public Utilities Commission. Copies of these Rules and Regulations are on file in the business office and are available for public inspection.

2. Interest to be Paid on Deposits

Simple interest, at the rate provided by the Idaho Public Utility Commission, shall accrue from the date of deposit until the date of refund or application to the customer's telephone bill.

3. Reconnection Charge

Where the company in accordance with IPUC Rules and Regulations has terminated service, the regular non-recurring charges shall apply for reconnection of service.

4. Issuance of Telephone Calling Cards or Credit Cards

Credit cards will be issued only to those persons living within the Company's service area. Issuance of a credit card will require the establishment of credit as outlined in the Telephone Customer Relations Rule codified under IDAPA 31.41.01

MINIMUM CONTRACT PERIODS AND TERMINATIONS OF SERVICE

1. Minimum Contract Periods

Except as hereinafter provided, the minimum contract period for all services and facilities is one month at the same location.

The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is first distributed to the subscribers to the day the succeeding directory is first distributed to subscribers.

The Company may require a minimum contract period longer than one month at the same location in connection with special (non-standard) types or arrangements of equipment, or for unusual construction necessary to meet special demands, and involving extra cost.

DEC 28 '00

JAN 1 - '01

GENERAL RULES AND REGULATIONS (Cont'd)

*Jean M. Jewell* SECRETARY

MINIMUM CONTRACT PERIODS AND TERMINATION OF SERVICE (Cont'd)

2. Termination of Service - Subscriber's Request

Service may be terminated prior to the expiration of the minimum contract period upon notice being given to the Company, and upon payment of any applicable termination charges, in addition to any applicable charges due for service that has been furnished. In the case of service for which the minimum contract period is one month, termination will require that charges due for the balance of the minimum period be paid.

In the case of directory listings where the listing has appeared in the directory or where a non-listed or non-published listing has been properly omitted, the charges are due to the end of the directory period, except that in the following cases charges will be continued only to the date of the termination of the extra listing or proper omission with a minimum charge of one month.

- (a) The Contract for the main service is terminated.
- (b) The listed party becomes a subscriber to some other class of exchange service.
- (c) The listed party moves to a new location.
- (d) The listed party dies.

For special equipment, the charges will be based on the individual circumstances in each case as agreed upon at the time of installation.

Contracts for periods longer than one month covering services whose installation required line extensions may be terminated upon payment of all charges that would accrue to the end of the contract period, or the contract will be transferred to a new applicant who is to occupy the same premises and will subscribe to the service effective on the day following termination by the original subscriber.

Service may be terminated after the expiration of the initial contract period, upon the Company being notified, and upon payment of all charges due to the date of termination of the service.

3. Termination of Service by the Company

The Company adopts by reference the Telephone Customer Relations Rule codified under IDAPA 31.41.01 and all amendments to those rules, which may be hereafter adopted by the Idaho Public Utilities Commission. Copies of these Rules and Regulations are on file in the business office and are available for public inspection.

DEC 28 '00

JAN 1 - '01

GENERAL RULES AND REGULATIONS (Cont'd) *Jean W. Jewell* SECRETARY

#### PAYMENT FOR SERVICE AND FACILITIES

1. Date Payment Due

The subscriber shall pay for service and facilities monthly in advance, except all various units of government, and shall pay for Toll Messages (including charges for messenger service), and Moves and Changes when billed. Failure to receive a bill does not relieve the subscriber of the responsibility for payment in accordance with the provisions set forth herein.

All bills for service are due and payable at the office of the Company on or before the fifteenth day following the post marked date of the statement of the month in which the bill is rendered.

2. Returned Check Policy

A charge, in accordance with Idaho Statute 28-22-105, will be made for all checks returned to the company for insufficient funds. If two insufficient fund checks are received from a subscriber within a twelve (12) month period, the company may require an additional deposit be assessed or that all subsequent payments be made by cash, money order or certified check.

#### SPECIAL SERVICES AND FACILITIES

Special services and facilities not ordinarily used in the furnishing of telephone service and not otherwise provided for by the tariff schedules of the Company may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Company. Special services are provided for each individual application as a custom-engineered system to satisfy and provide for the needs of that customer. Applicable charges will be determined by the revenue requirements of the utility for each individual system. In the event any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Company, the Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the subscriber; and provided further that the Commission may terminate such contract whenever, in its opinion, public interest requires such termination.

LOCAL MEASURED RATE SERVICE

RATES AND CHARGES

1. Measured service is only offered to residential customers in the following exchanges:  
 Cambridge, Council, Cuprum, and Indian Valley.
  
2. Measured Service Usage Rates
 

|                              | Rate<br><u>Per Minute</u> |
|------------------------------|---------------------------|
| First 90 minutes/month       | N/C                       |
| After first 90 minutes/month | \$0.03                    |
  
3. Measured Service Line Rates
 

|                               | Monthly<br><u>Rate</u> |
|-------------------------------|------------------------|
| Residential – Individual Line | \$18.00                |

(I)
  
4. Measured Service Usage Charges
  - a. Measured service usage charges are based upon rates shown above and are applicable to local originated messages completed on a dial station-to-station basis.
  - b. The rate for each minute is the rate in effect at the beginning of each month.
  - c. Measured service usage charges accumulate on a monthly basis commencing on the billing date.
  - d. Calls to directory assistance are not subject to measured service usage charges.
  
5. Measured Service Components
  - a. Minutes of Use
  - b. Measured Service Usage rates as shown elsewhere in this tariff are for each minute or any fraction thereof after the first 90 minutes/month for which there is no charge.
  
6. The monthly rates for this service do not contemplate the provision of monthly billing detail. When billing detail is furnished, it must be arranged for in advance. The following charge per call will be assessed. In addition, the following service and equipment one time charge will also apply.

|                             | <u>Nonrecurring<br/>Charge</u> | <u>Charge</u> |
|-----------------------------|--------------------------------|---------------|
| Detail billing, per call    |                                | N/C           |
| Each Service Order Required | \$4.00                         |               |

DEC 28 '00

JAN 1 - '01

LOCAL MEASURED RATE SERVICE (Cont'd)

*Jean D. Jewell* SECRETARY

DESCRIPTION

1. Measured service is an exchange service for which a regular monthly charge is billed to the customer for access to the local and toll networks. In addition to the monthly charge, local usage charges will apply for outgoing calls completed on a local basis.
2. Measured service requires special CO equipment and is furnished only in exchanges where facilities are available.

REGULATIONS

1. Measured service is available for only residential customers on an individual line basis only.
2. Network access line service and measured service will not be provided on the same customer premises.
3. The customer has no property rights to the continuance of service through any particular wire center and the Company may change the wire center designation of a customer whenever it deems it necessary in the conduct of its business. Wire center service area transfers and wire center additions do not constitute a rate change.
4. Timing of Local Messages
  - a. Chargeable time begins when connection is established between the calling station and the called station.
  - b. Chargeable time ends when the calling station hangs up, thereby releasing the network connection. If the called station hangs up, but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
  - c. Chargeable time does not include time lost because of faults or defects in the connection.

| Digital Subscriber Line (DSL) Service |                     | Interstate Rate +<br>Local Rate |

CONDITIONS

The above rates apply to the provision of network access lines which, when connected to a suitable telephone instrument provides access to the telephone network.

Instruments must be provided by the subscriber, subject to the conditions described in the Connection With Subscriber-Owned Equipment portion of this tariff.

Additional instruments may be attached to network access lines. The Company reserves the right to limit the number of instruments connected to an access line if they cause interference with the normal operation of the line.

CONDITIONS (Cont'd.)

Business Rates Apply:

At any location where activities are of a business, trade, or professional nature.

At any location where the listing of service at that location indicates a business, trade, or profession.

Where only one network access line is provided at a location which is both a residence and a business.

At schools, hospitals, libraries, churches, and other similar institutions.

Residence Rates Apply:

In private residence where business listings are not provided and telephone service is not used for the conduct of business.

In the place of residence of a clergyman, physician, or other medical practitioner provided the subscriber does not maintain an office in the residence.

Extended Area Service:

Extended Area Service (EAS) will be provided between the exchanges listed on the next page without additional charge.

SERVICE CONNECTION, MOVE AND CHANGE CHARGES

SECRETARY

## RATES

|                 | <u>Monthly Rate</u> |
|-----------------|---------------------|
| Service Order   | \$12.50             |
| Line Connection | \$25.00             |
| Premise Visit   | \$40.00             |

## CONDITIONS

These charges are intended to cover the expense incurred by the Company in conjunction with the following:

- Establishment of service;
- Change in location of a service to other premises;
- Transfer of service from one customer to another;
- Change of telephone number at customer's request;
- Installation of auxiliary equipment;
- Restoral of service disconnected for nonpayment or failure to establish credit.

Charges shown are in addition to installation charges shown under other Tariff schedules.

Charges shown in this schedule are based on work being performed during regularly scheduled working hours of the Company's employees. Work performed with overtime labor costs will be performed at direct cost to the customer.

No charges will apply under the following circumstances:

- Service to which no monthly rates apply:

## DEFINITIONS

Service Order

Applicable to work done in receiving, recording and processing information necessary to execute a customer's request for the establishment of service. It is also applicable for customer's request for additions, moves or changes to existing service.

LOW-INCOME ASSISTANCE PROGRAM

Low-Income Assistance Programs consist of two programs, Lifeline Assistance and the Idaho Telephone Service Assistance Program (ITSAP). These programs were developed to reduce rates for low income customers. The Company participates in both of these assistance programs to increase the availability of telecommunications services to all consumers in its serving areas.

RATES

- A. Lifeline is a reduction or credit in the local service charges normally paid by qualifying low-income consumers. The reduction to the normal residential one-party rates are as follows:

| <u>Residential Access Lines</u>  | <u>Monthly Credit</u> |                 |
|--|-----------------------|-----------------|
| Federal Lifeline Support<br>(Credit first applies to the \$6.50 Federal End User<br>Common Line Charge. Additional credit above<br>\$6.50, if applicable, applies to basic service.) | 47 CFR § 54.403       | (C)<br> <br>(C) |
| State Local Rate Support   | \$2.50                |                 |

- B. Tribal Lifeline will consist of up to an additional \$25 per month, per primary residential connection for qualifying low-income individuals living on qualifying tribal lands.

LIFELINE ASSISTANCE

- A. The Company shall provide Lifeline Assistance as defined in FCC 47 C.F.R. 54.401 (a) on a non-discriminatory basis to all qualifying low-income customers. The Company's Lifeline service offering shall comply with all applicable federal laws, including but not limited to, 47 C.F.R. Part 54, Subpart E; the FCC's Lifeline Reform Order (Report and Order released February 6, 2012, WC Docket No. 11-42, et. al.), the FCC's Lifeline Modernization Order (Third Report and Order released on April 27, 2016, WC Docket No. 11-42, FCC 16-38, et. al.), and any subsequent revision.
- B. Residents of Tribal Lands can also qualify for the Federal portion of the Lifeline program based on terms and conditions for Tribal Lands.

LOW-INCOME ASSISTANCE PROGRAM (Cont'd)

(T)  
(D)

IDAHO TELECOMMUNICATIONS SERVICE ASSISTANCE PROGRAM (ITSAP)

(N)(D)

A. General

ITSAP provides for additional state credits against the recurring monthly rates for the provision of local residential service for eligible residential subscribers.

B. Regulations

The total cost of providing the intrastate credit for Lifeline Assistance shall be funded from a uniform monthly surcharge to each business and residential access line. This surcharge was effective with the implementation of the Lifeline Program, and is subject to change.

C. Eligibility Requirements

(N)

1. The state credit is only available to residential subscribers if their income falls at or below 135% of Federal Poverty Guidelines.
2. A qualifying customer must be Head of the Household.

(D)

LOW-INCOME ASSISTANCE PROGRAM (Cont'd)

**OFF-PREMISE EXTENSION SERVICE**

*Jean W. Jewell* SECRETARY

**RATES**

|   | <u>Nonrecurring<br/>Charges</u>        | <u>Monthly<br/>Rate</u>                       |
|---|--|---|
| Continuous Property                                   | Actual Cost                            | No Charge                                     |
| Continuous Property -<br>Additional Network Interface | Applicable<br>Nonrecurring<br>Charges  | \$5.00  |
| Non-Continuous Property<br>Each Location              | Applicable<br>Non-Recurring<br>Charges | Flat Rate<br>Residence<br>Access<br>Line Rate |

**CONDITIONS**

Off-premise extension service, where the extension is located in a different building on the same continuous property as the main access line termination, may be installed by the Company. The installation charge will be negotiated between the subscriber and the Company. The subscriber is responsible for the maintenance of any subscriber owned wiring. No recurring monthly charge will apply in this situation.

Continuous property extensions are defined as those where the drop to the additional access point comes directly from the premises of the main access line termination and does not come out of the distribution cable.

Continuous property extensions requiring an additional network interface are defined as those where the drop to the additional access point comes out of the distribution cable and requires an additional network interface.

When off-premise extension service is provided on Non-Continuous property, each location is treated as an access line termination and the applicable access line rates will apply at each location. Installation will be performed based on all applicable Non-Recurring service connection elements.

VACATION SERVICE

*Jean H. Jewell* SECRETARY

RATES

Monthly  
Rate

Vacation Service \*

½ of the Total  
Monthly Network  
Access Line Rate

CONDITIONS

Vacation service may be requested by the customer for any class of residential network access line service.

Vacation rate service is granted for not less than one month and not more than six months within any consecutive twelve-month period. Vacation rate service may begin on any day of the month.

Sufficient advance notice shall be given to permit arrangements for establishment or extension of vacation rate service or early restoral to complete service.

Complete service will be restored without notice on the last day of the designated vacation service rate period, unless the subscriber requests the Company to restore service sooner or to extend the vacation rate service period (to maximum of six months).

No outward or inward service is provided during the period of suspension.

A Line Connection Charge will apply to the suspension and restoral of service.

Any charges made for additional directory listings will continue at the full rate during the vacation period.

\* Vacation service is not available in the Company's Lowman exchange.

DIRECT-INWARD-DIALING (DID) SERVICE (Cont'd)

*Jean A. Jewell* SECRETARY

DESCRIPTION

Direct-Inward-Dialing (DID) Service is a special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX (Private Branch Exchange) station directly without an attendant's assistance.

CONDITIONS

1. This feature may be provided, in addition to regular, FCO or FX rates and charges, where CO facilities are available and the PBX system or customer-provided switching equipment capabilities permit.
2. One primary directory listing in the main directory of the serving CO is provided for each PBX system.
3. The provision of this feature requires that the customer subscribe to a sufficient number of trunk facilities to adequately handle the volume of incoming calls.
4. Sequential numbers may be assigned if blocks of numbers are available and at the discretion of the Company. Rates and charges associated with sequential numbers are specified in the rate section above.
  - a. A DID sequential number block is a group of twenty (20) telephone numbers in numeric order. The last digit of the first number within the block is a zero (0), and the last number within the number block must include an odd number in the sixth digit and a nine (9) in the last digit.
  - b. Customers requesting that numbers in a sequential number block be removed from the block will be charged a Block Compromise Charge as specified in the rate section above.
5. DID Service is offered with switching vehicles served by trunk service. Answer Supervision is required from the customer's switching vehicle.
6. Direct Inward-Dialing Services are available only to customers who are served from a central office equipped to provide such services.
7. From time to time the Company may offer promotional programs where the non-recurring charges may be waived.

| Non-List                                   | 3.00                    |     |
| Non-Publish                                | 4.00                    |     |
| Foreign Exchange                           | 3.00                    |     |

CONDITIONS

The regulations for directory listings, as provided in this section, apply only to that section of the directory containing the regular alphabetical list of names of subscribers.

Primary Listing

One listing without charge, termed the Primary Listing, is provided as follows:

1. For each separate subscriber service. When two or more main station lines or PBX trunk lines are consecutively operated, the first number of the group is considered the primary listing.
2. Non-listed telephone numbers are listed in the information file, but are not listed in the directory for which the Company provides information. They will be given out upon request.
3. Non-published numbers are not listed either in the directory or the information file and are not to be given out to anyone unless authorized by court of law.

DIRECTORY LISTINGS (Cont'd)

*Juan D. Jewell* SECRETARY

Restrictions

Names in directory listings shall be limited to the following:

1. In connection with residence service:
  - (a) The individual names of the subscriber, or
  - (b) The individual name of a member of the subscriber's family, or
  - (c) The individual name of a permanent member of the subscriber's household, or
  - (d) Dual (joint) listings for customers who share the same surname and reside at the same address.
  
2. In connection with business service.
  - (a) The individual name of the subscriber, or
  - (b) The name under which the subscriber is actually doing business, or
  - (c) The name under which a business is actually being conducted by someone other than the subscriber and which the subscriber is authorized by such other to use, or
  - (d) The individual names of the officers, partners, or employees of the subscriber, or
  - (e) The names of departments when such listings are deemed necessary from a public reference viewpoint.

The Company may require that the subscriber provide the Company with written permission for the insertion or continuance of listings. The Company may refuse to accept or may delete listings of a business which the subscriber claims to represent. The Company may refuse to accept or may delete a listing which includes the trade name of another.

DESCRIPTION

This service is applicable for telephone number assignment when the customer request a specific telephone number other than those offered by the Company. If the telephone number requested is available, the Company may assign the number to the customer.

CONDITIONS

1. The Company will offer up to 5 numbers for customers to choose from at no charge. If a customer requests further or more specific number choices and accepts a number offered, the charge specified above will apply. Custom Number service will not apply when the customer requests assignment of the same number within one year of termination as long as the number has not been reassigned.
2. The Company reserves and retains the right:
  - a) To discontinue a charge or reassign telephone numbers in any exchange area whenever it deems it necessary or appropriate in the conduct of its business, or in accordance with the rules and regulations of the Company. If this should occur within a one year period following assignment, the Custom Number service charges will be refunded to the customer.
  - b) To reject any request for specific numbers for any reason, including, but not limited to, numbers that may, in the Company's opinion, be offensive to good taste, limited by central office capacity or by relocation of a central office.
3. The Company shall in no event be liable to any customer for direct, indirect or consequential damages caused by a failure of service, change of number or assignment of a requested number to another customer whether prior to or after establishment of service. In no event shall the Company be liable to any person, firm or corporation for any amount greater than such person, firm or corporation has actually paid to the Company for Custom Number Services.

CUSTOM CALLING FEATURES (CCF) (Cont'd)

*Jean H. Jewell* SECRETARY

DEFINITIONS

Speed Calling - permits placing local and long distance calls to preselected telephone numbers by dialing an abbreviated code. To add a number to the calling list the customer uses his own telephone.

Call Waiting - a distinctive tone informs the telephone user that another call has been placed to his line. By briefly depressing the hookswitch, the user will be connected to the second caller while holding the first, subsequent depressions of the hookswitch will allow the user to alternate between callers.

Conference Calling - permits a telephone user to add a third party to an existing local or long distance call. It will also permit a telephone user to consult privately with a third party while holding the original call.

Call Forwarding - permits transfer of all incoming calls automatically to any dialable number. The number can be selected by the customer each time Call Forwarding is activated or the call directed to the previously selected number. If the alternate location is not a free call the customer will be billed for each call forwarded.

Distinctive Ringing - allows the subscriber to have a second telephone number on their telephone line. A distinctive ring will alert the subscriber when the second line is being called. An additional directory listing is included with this feature.

Fixed Calling - after dial tone is obtained, if the caller does not commence dialing within a predetermined length of time, a call will automatically be placed to a number previously selected by the subscriber.

Line Busy Call Diversion - permits calls to automatically be transferred to a predetermined alternate number whenever the primary number is busy. The alternate number can be any dialable number and can be modified only at the Central Office. If the alternate location is not a free call, the customer will be billed for each call diverted.

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)  SECRETARY

#### CONDITIONS

1. Advanced Custom Calling Features are available only to those subscribers who are served from a Central Office equipped to provide such services.
2. Calling Name and Number Deliver, Blocking and Anonymous Caller Rejection require an additional piece of Customer Provided Equipment (CPE) to fully activate features.
3. Selective Call Forwarding, Selective Call Rejection, Selective Call Acceptance, and Distinctive Ringing/Call Waiting provide customers with four different options for treating incoming calls. Each feature is capable of holding a list of up to 12 directory numbers (DNS) that should receive screening treatment. Once a customer has programmed the list and turned on the feature, the switch will screen each incoming call and direct the call to the treatment specified by the feature.
4. For those Advanced Custom Calling Features billed on a per usage basis excluding Call Trace, a maximum amount as listed above will be billed once the per usage charges reach or exceeds the maximum.
5. From time to time, the Telephone Company may offer special promotions to its customers. These offerings will generally consist of a reduced price, a waiver of installation charges, or a free service with a purchase of another service. These offerings may be limited to certain dates and locations, and will be for limited time periods. When such an offering is made, the Commission will be notified and a copy of the offering notice will be provided to them.

#### OBLIGATION OF COMPANY

1. Limitation of Obligation with Respect to Privacy Concerns

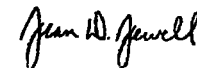

The Company shall be held harmless by the subscriber in cases where the subscriber's telephone number is transmitted via the Caller ID Feature to another subscriber who subscribes to that service, and the subscriber has not blocked the transmission of his telephone number.

2. Obligation of the Subscriber

Under no circumstances should any subscriber to the Caller ID Advanced Custom Calling Feature use telephone numbers delivered to him for purposes of marketing any service, or for the sale of those numbers to any interested party. Permitted uses of the number information received through the Caller ID service include:

“billing and collection, routing, screening, and completion of the originating subscriber's call or transaction, or for services directly related to the originating subscriber's call or transaction.”

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

SECRETARY

OBLIGATION OF COMPANY (Cont'd)

Caller ID information can be used only to market goods and services to existing customers, and only to market goods and services to existing customers that are directly related to those the existing customer already uses.

Notification of illegal procedures having been given herein, the Company shall be held harmless by all parties in cases where subscribers of the Company use this information in an unauthorized manner, as described above.

DEFINITIONS

Anonymous Call Rejection - allows a subscriber to reject any anonymous (untraceable or blocked) call from being accepted. The calling party will get a recording that the call is being rejected. This feature can be activated by dialing (\*77) push button or 1177 rotary and deactivated by dialing (\*88) push button or 1188 rotary.

(N)  
|  
(N)

Automatic Callback - allows the subscriber to redial the last number called from their station. This applies regardless of whether the original call was answered, unanswered, or encountered a busy tone. To activate, dial (\*66) push button or 1166 rotary and (\*86) push button or 1186 rotary to deactivate.

Automatic Recall - allows the subscriber to direct the switch to place a call to the last calling party. This applies whether the call was answered or unanswered and allows the subscriber to hear the directory number of the last incoming call prior to deciding whether or not to recall that number. Dial (\*69) push button or 1169 rotary to activate and (\*89) push button and 1189 rotary to deactivate.

Call Forward Don't Answer - allows a subscriber to have all calls (incoming or intragroup) forwarded to another number if the subscriber does not answer after a preset number of ringing cycles as set by the Company. The subscriber can activate the feature by dialing (\*92) push-button or 1192 rotary and deactivate the feature by dialing (\*93) push-button or 1193 rotary.

Call Forwarding Busy - allows a subscriber to have incoming calls forwarded to another number when the called number is busy. The subscriber can activate the feature by dialing (\*90) push-button or 1190 rotary and deactivate the feature by dialing (\*91) push-button or 1191 rotary. The alternate number can be any dialable number and can be modified only at the Central Office. If the alternate location is not a free call, the subscriber will be billed for each call diverted.

DEC 28 '00

JAN 1 - '01

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)  SECRETARY

DEFINITIONS (Cont'd)

Calling Line Identification – provides the capability to identify the calling line or incoming trunk number on specified directory numbers.

Customer Originated Trace (COT) - allows a subscriber to have the last incoming number automatically traced. The results of the trace are not provided directly to the subscriber; they are output to the telephone company. The Company, at the subscriber request, will forward the results to the police after a case number has been assigned by the police. The access code for this feature is (\*57) push-button or 1157 rotary.

Denied Customer Originated Trace – allows the subscriber to have the feature whereby no trace may be done on a per call basis.

Caller ID - Name and Number - allows for the automatic delivery of a calling party's name and telephone number (including nonpublished and nonlisted telephone numbers) to the called customer, after the first ring, but before the call is answered. The name and number are displayed on customer provided equipment.

The name displayed shall be the name associated with the calling telephone number as shown on the Company's records. The Company, in its discretion, may abbreviate or limit that name for display purposes. The Company does not assure name accuracy, and it shall not be liable to any party for errors, omissions or mistakes. The Company's sole and obligation shall be to reasonably correct errors in names when notified in writing of such errors.

The calling telephone name and number is only available in those areas where appropriate signaling network connections exist to forward the calling party's name and number. The calling name and number is also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is a multi-party line, or is blocked, the number will not be displayed.

Caller ID information transmitted via Caller ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the subscriber from the number delivery services subscriber. Caller ID subscribers failing to comply with any of these conditions will have their service terminated.

#### ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

##### DEFINITIONS (Cont'd)

Caller ID – Number – same as “Name and Number” except only the calling Party’s number is delivered.

Caller ID Per Call (\*67) Blocking – allows a subscriber to block delivery of his/her name and number when calling someone with Caller ID capabilities. The activation code for this feature is (\*67) push-button or 1167 rotary. This feature is provided free of charge to all subscribers receiving telephone service from suitably equipped central offices.

Caller ID – Per Line Blocking – provides a permanent indicator on a customer’s line. Once block is established on the customer’s line, the private status can be deactivated by the customer on a per call basis.

Caller ID – Per Call Unblocking - Allows a subscriber who has Caller ID – Per Line Blocking to unblock delivery of his/her name and number when calling someone with Caller ID capabilities. The activation code for this feature is \*82 (1182 rotary). This feature is provided free of charge.

Caller ID Name and Number/ Caller ID On Call Waiting – Allows the subscriber to identify who is calling, if traceable, while on the phone. A phone or box that has the capability of Caller ID Name and Number and Caller ID On Call Waiting is necessary. Caller ID On Call Waiting cannot be used without having Caller ID Name and Number, therefore this includes the \$5.50 charge for Caller ID Name and Number.

Cancel Call Waiting – allows the subscriber to cancel Call Waiting before or during one telephone call. The access code to cancel Call Waiting is (\*70) push-button (1170 rotary).

Deny Originating – allows the subscriber to receive calls but not originate any calls.

Deny Terminating – allows the subscriber to originate calls but not to receive any calls.

Distinctive Ringing/Call Waiting Access – allows a subscriber to receive a Distinctive Ringing signal or an audible Call Waiting tone from a line equipped with Dial Call Waiting. If the call line is idle, a Distinctive Ringing signal will be heard. If the called line is busy, the called line receives a Call Waiting tone. The access code for this feature is (\*81) push-button or 1181 rotary.

Distinctive Ringing/Customer Intercom – allows for a distinctive ringing on all extensions of a line for revertive calls. The subscriber lifts the receiver, dials own number and follows instructions.

Remote Call Forwarding – (RCF) is a standalone service that allows incoming calls to be forwarded to another local or long distance telephone number. With the RCF feature, all calls to a telephone number are always forwarded to a remote directory number.

Selective Call Acceptance – allows subscribers to specify a list of numbers from which they are willing to accept calls. Calls from numbers not contained on the list are routed to an appropriate announcement. The access code for this feature is (\*64) push-button or 1164 rotary, and is used to add or delete numbers for the list of acceptable calls.

MAR 5 - '01

MAR 5 - '01

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

*John D. Jewell*

SECRETARY

DEFINITIONS (Cont'd)

Selective Call Forwarding - permits the subscriber to create a list of calling numbers that are to be call forwarded. If a call is received from a Directory Number on the screening list, the call is forwarded to the designated forward-to number. All other calls are treated normally. The access code for this feature is (\*63) push-button or 1163 rotary.

(M)  
|  
(M)

Selective Call Rejection - allows the subscriber to have incoming calls from designated directory numbers rejected. Calls from the directory numbers specified by the subscriber will not be allowed to terminate at the station. To active or deactivate, dial \*60 push button or 1160 rotary.

Usage Sensitive Call Forwarding - causes all calls attempting to terminate to a subscriber's line to be directed to an alternate line, whether the subscriber's line is busy or idle. The feature differs from standard Call Forwarding in that the subscriber is charged on a usage basis rather than a flat rate basis. The access code to activate the feature is (72#) push-button or 1172 rotary. To deactivate the feature the access code is (73#) push-button or 1173 rotary.

Usage Sensitive 3-Way Calling - allows the subscriber to add a third party to an existing two-way connection. The subscriber flashes the hookswitch during a normal talking connection, receives a second dial tone, and dials a third party. The subscriber controls the conference and must remain on line for the duration of the call. This service is charged on a per usage basis rather than a flat rate.

Usage Sensitive Call Waiting - allows the subscriber during a normal call, to be informed that a third party is calling and allows connection to the third party without dropping the initial talking connection.

User Transfer - allows the subscriber to transfer a call to another number. The subscriber must have 3-Way Calling or Usage Sensitive 3-Way Calling.

(N)  
|  
(N)

0+ Blocking - no 0+ calls can be originated.

AUTOMATIC DIALING AND ANNOUNCEMENT DEVICES (ADADs) *Ann D Jewell* SECRETARY

RATES

|                 | <u>Monthly<br/>Rate</u>      |
|-----------------|------------------------------|
| Per Access Line | Business Access<br>Line Rate |

DESCRIPTION

An automatic dialing an announcement device (ADAD) dials telephone numbers it has been programmed to dial and plays a recorded message when a call is answered. There are two types of ADADs: those used for solicitation calls and those used for non-solicitation calls.

CONDITIONS

Certification

Before any ADAD, other than one that will be used to deliver a message in response to an emergency, may be connected to the telephone network, the potential user must verify in writing to the Company that the ADAD(s) will have the capacity to comply with the requirements of these tariff provisions and that the user will use the ADAD(s) only in compliance with these provisions.

Regulations

- A. The potential user must notify the Company in writing of the intended use of the ADAD(s). The notice shall list the calendar days and clock hours during which the ADAD(s) will be used and shall estimate the message attempts per hour and the average length of completed messages.
- B. The ADAD user (customer) must notify the Company in writing within 30 days of any changes in the ADAD operation that results in either an increase or decrease in the number of message attempts per hour and/or the average length of completed message

DEC 28 '00

JAN 1 - '01

AUTOMATIC DIALING AND ANNOUNCEMENT DEVICES (ADADS)

*Jean H. Jewell*  
(Cont'd)

SECRETARY

CONDITIONS (Cont'd)

Regulations (Cont'd)

- C. The use of automatic dialing and announcement devices (ADADs) that do not automatically disengage the called party's line when the called party hangs up its receiver are absolutely prohibited, except for their use in security and alarm systems or other systems in which the called party has previously agreed to the ADAD's call and has consented to its line being engaged in this manner.
- D. ADADs are prohibited from making unsolicited calls before 9:00 AM or after 9:00 PM.
- E. ADADs are prohibited from calling public safety numbers such as police, fire and emergency services. ADADs are prohibited from calling unlisted, unpublished or inward WATS numbers. ADADs are prohibited from calling more than one number held by a given called party.

DEC 28 '00

JAN 1 - '01

CONSTRUCTION CHARGES

*Jean A. Jewell* SECRETARY

GENERAL

In the interest of the general body of customers and in providing just and reasonable rates and charges it may become necessary to impose additional charges to establish service in certain instances, e.g. (1) exchange service is ordered in an area where no facilities are available; (2) the facilities required will be temporary; (3) unusual costs are involved in furnishing the service or facilities.

The provision of service may require the payment of a construction charge by the applicant ordering the service or requesting the facilities. This charge is in addition to the regular rates and charges applicable for the exchange service provided.

Line extensions consist of additions to plant beyond existing leads, and do not include additions to plant along existing telephone utility leads. Line extension charges are applied to subscriber applicants with abnormally long extension requirements to prevent unreasonably burdening the general body of existing subscribers. All line extensions will be owned and maintained by the Company.

Line extension charges set forth in this schedule apply in connection with all types of service when established by means of an extension to the Company's plant consisting of "buried wire" or pole construction, including extensions by means of poles to be owned solely by the Company or jointly with others and by means of contacts or contact space on poles of others. The Company shall determine the type of construction to be used.

When an applicant is so located that it is necessary to use private and/or public right-of-way to furnish service, and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the costs incurred in securing the right-of-way in addition to other charges.

In lieu of the charges otherwise applicable, the applicant, if he so elects, may initially clear the right of way, furnish materials, transportation or labor, in accordance with the normal construction standards of the Company. In all instances the ownership of facilities shall be entirely vested in the Company.

The locations of line extensions are determined by the telephone company and the distances (including drop wire) are measured along the route so selected.

Construction to serve two or more customers, whether on public right-of-way or private easements, may be used for serving subscribers in general.

DEC 28 '00

JAN 1 - '01

CONSTRUCTION CHARGES (Cont'd)

*John H. Jewell* SECRETARY

GENERAL (Cont'd)

The total extension to plant (along public roads or on private property) to be furnished without charge shall not exceed 1000 feet per application. Where the total extension exceeds 1000 feet, the free footage allowance is first computed for the private property portion of the extension prior to computing any allowance for the construction along public roads. In addition to the Line Extension Allowance, customers shall receive up to 300 feet of drop wire construction without charge.

Contracts, covering periods not more than three years of telephone service, may be required by the Company as a condition precedent to establishment of the service when line extensions are necessary. Such contracts will not require advance or unusual payments in excess of those otherwise required by this schedule, and shall not interfere with the Company's right to collect amounts as provided elsewhere in its tariff schedule.

Line extension charges assessed to applicants will be based on Rural Utilities Service (RUS) Rules and Regulations when applicable. In case of disagreement or dispute regarding the application of any provisions of this rule, or in circumstances where the application of this rule appears impracticable or unjust to either party, the utility, applicant, or applicants may refer the matter to the Idaho Public Utilities Commission for ruling.

The estimated cost of the line extensions are payable in advance. In the event of overcharge, refunds to applicants will reflect the difference between the estimated cost and the actual cost of the line extension. In the event of undercharge, the Company shall bill the applicant for an amount not to exceed 10% of the estimated extension costs. Any adjustments between the estimated costs advanced by the applicant and the reasonable actual cost shall be made within sixty days after completion of the extension.

DEC 28 '00

JAN 1 - '01

CONSTRUCTION CHARGES (Cont'd)

*John H. Jewell* SECRETARY

LINE EXTENSIONS

RATES

A. Line Extensions and Additions within the Base Rate Area:

Extensions and additions to plant necessary  
to provide telephone service

No Charge

B. Line Extensions and Upgrades outside the Base Rate Area:

a. Upgrades to plant along existing  
exchange or toll telephone circuits of  
this utility, including 1000 feet of drop  
wire construction.

No Charge

b. Extension to plant beyond existing exchange or toll telephone circuits of this utility,  
including poles and buried wire.

(1) Free Footage Allowance:  
The Company will construct at its  
expense a maximum of 1000 ft. of  
line extension per applicant of  
which not more than 300 ft. of  
this free footage may be on private  
property or along a private road.  
The Company will also construct at its  
expense a maximum of 300 feet of drop  
wire per applicant.

No Charge

(2) Extensions to plant and drop wire  
construction exceeding free  
footage allowance:

Actual Cost

c. For line extensions of unusually long length or high cost, the Company may also  
estimate the cost of providing radio telephone service. The Company or  
applicant may request either line extension or radio telephone service and the  
applicant will pay the actual cost for the chosen option in excess of the free  
allowance which would be provided under the line extension option.

DEC 28 '00

JAN 1 - '01

CONSTRUCTION CHARGES (Cont'd)

*John W. Jewell* SECRETARY

LINE EXTENSIONS (Cont'd)

GROUP OF APPLICANTS

When construction is required to serve a new applicant, a survey is made of all prospective subscribers who might be served from the new construction or an extension thereof and who might benefit by being included in the project. Free footage allowances are made only for those prospective subscribers making a written application for service.

All applicants are grouped in a single project when there is no more than one-half mile of construction between successive applicants. Separate projects are established whenever the construction between any two successive applicants exceeds one-half mile. Two or more projects are combined, however, whenever this results in lower charges (or no increase in charges) for all of the applicants involved.

An applicant at any premises receives only a single line extension and drop wire allowance regardless of the number of services ordered at that premises.

Applicants ordering service at more than one premises are treated as separate applicants at each premises for purposes of this schedule.

For the purpose of determining project charges, the collective free footage allowance for the group is subtracted from the overall Line Extension footage required for service. The total project cost is then divided equally among all applicants.

Exceptions:

- (1) No applicant is required to pay a higher charge than he would if the project were established for him alone. Any difference between this charge and the average charge for the group is absorbed by the Company.
- (2) Charges for extensions to plant on private property (including drop wire) are assumed by applicants on whose property such extensions are made and these charges are not included in the overall charges for the project. Likewise, the free footage allowance on private property is not included in the collective allowance for the project.

CHARGES TO SUBSEQUENT APPLICANTS

When a new applicant can be served from a completed project, within three years from the date service was initially established for such project, the charges for the entire project are recomputed to include the new applicant. The new applicant pays a prorated amount of the line extension charge based on the number of months (a fraction of a month is counted as a full month) remaining in the original three-year term. The time is computed from the date service is established for the new applicant.

DEC 28 '00

JAN 1 - '01

CONSTRUCTION CHARGES (Cont'd)

*Jean H. Jewell* SECRETARY

CHARGES TO SUBSEQUENT APPLICANTS (Cont'd)

Where additional construction is required for an applicant to be served from a project less than three years old, the cost of the project is computed as above if such recomputation does not increase the charges to those customers served from the existing project. Otherwise, a new project will be established.

When a project is recomputed as described above, existing subscribers will be refunded a prorated amount of the difference between the original charges and the recomputed charges, based on the remainder of the three-year term. Recomputation of the charges due to the addition of new applicants is made on the assumption that there have been no disconnects.

Where construction on private property is subsequently treated as being on public roads, or where a private road is dedicated to the public use, within three years of completion of the original project, the time extension charges shall be recomputed and refunds made to the initial applicants where applicable.

DISCONNECTS AND REUSE OF FACILITIES

When one or more subscribers on a project disconnect within the three year term, no refund is made of the line extension charge to the disconnected subscribers. Charges to remaining subscribers are not affected by disconnects.

When a subscriber disconnects service or moves off the project and service is established for a new applicant at the same location, any adjustment in charges is a matter for negotiation between the original subscriber and the new applicant.

Where a subscriber is disconnected for any reason and subsequently re-applies for service from the same premises or another premises on the same project, the subscriber will not be required to pay any additional line extension charges in addition to his total original obligation.

REAL ESTATE SUBDIVISIONS

Line extensions into real estate subdivisions will be made by the Company provided 60% of the estimated total cost of such extension is advanced to the Company by the subdivider. The amount so advanced will be refunded to the subdivider when 50% of the estimated total telephone services are connected within the subdivision during a period of five years from date of agreement. The subdivider shall notify the Company in writing when the 50% hook-up has been attained. Final evaluation will be made by the Company.

RIGHTS-OF-WAY AND EASEMENTS

1. Within the applicant's subdivision, the Company will construct, own, operate, and maintain facilities only along public streets, roads, and highways which the Company has the legal right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to the Company may be obtained without cost or need for condemnation by the Company.

DEC 28 '00

JAN 1 - '01

CONSTRUCTION CHARGES (Cont'd)

*John D. Jewell* SECRETARY

RIGHTS-OF-WAY AND EASEMENTS (Cont'd)

2. Rights-of-way and easements, within the subdivision, satisfactory to the Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Company. Such clearance and grading must be maintained by the applicant during construction by the Company.

TEMPORARY OR SPECULATIVE SERVICE

Line extensions and/or additions to provide service to an applicant engaged in temporary or speculative business will be made on the condition that applicant pays to the Company the total cost of the construction and removal of the line necessary in furnishing the service, less the salvage value of the material used.

If a subscriber maintains for thirty-six consecutive months a service installation which was originally established on a temporary or speculative basis, and if his business or operation at the end of that time has proven its permanency to the satisfaction of the Company, there will be refunded to the subscriber an amount equal to the difference between the payment made and the normal line extension charge which would have been applicable at the time the subscriber's service was installed.

In no event shall service installation be classes as temporary or speculative for more than six years. Refund provisions apply at the end of not more than six years.

SAVING CLAUSE

Arrangements may be made, other than as provided for above in this schedule, in the following cases subject to prior authorization of the Idaho Public Utilities Commission:

Where the applicant requests a particular type of construction or a specific route for extensions to meet the applicant's special requirements and where the construction or route so requested differs from the normal standards of the Company and is not required by law.

Line extensions involving underground crossings of railroads, highway or power lines, submarine cable, or along river crossings.

Where construction is required to provide service on a seasonal basis, or to provide Foreign Exchange Service, or to meet other unusual conditions.

Any other line extension and/or additions involving unusual or disproportionately large construction expenditures as compared to the usual line extension.

CONNECTION WITH SUBSCRIBER-OWNED EQUIPMENT *John H. Jewell* SECRETARY

## RATES

### Rate

Local line access will be supplied at the rates described in the "Local Measured Rate Service" and "Network Access Line Service" Sections of this Tariff.

### Service Call

If a trouble report results in a service call and the trouble is found to be in the customer-provided equipment, the premise visit rate as described in the "Service, Connection, Move and Change Charges" section of this tariff is applied.

## CONDITIONS

### General

Customer-provided terminal equipment or communication systems (CPE) used in conjunction with telephone service shall not interfere with any of the service offerings of the Company, endanger Company employees or the public, damage or require the alteration of Company facilities, interfere with the proper functioning of Company facilities, or impair the operation of the telephone network. Upon notice from the Company that the CPE is causing or is likely to cause such hazard or interference, the customer shall make whatever changes are necessary to correct the problem.

The Company shall not be responsible for the installation, operation maintenance of any CPE. The customer shall be responsible for the payment of all Company charges for visits by the Company to the customer premises where a service difficulty or trouble report results from customer-provided equipment or facilities.

Where CPE is connected to Company facilities, the responsibility of the Company shall be limited to the furnishing, operation and maintenance of such facilities in a manner suitable for telephone service. The Company shall not be responsible for the through transmission of signals generated by the CPE or, for the quality of, or defects in, such transmission, or the reception of signals by CPE.

The Company shall not be responsible to the customer if changes in any of the facilities, operations or procedures of the Company render any CPE obsolete or require modification or alteration of such equipment or otherwise affect its use or performance.

Where CPE is used with telephone service in violation of any of these conditions, the Company will take whatever action is necessary to protect the network and will promptly notify the customer of the violation in writing. The customer shall discontinue use of the equipment or correct the violation. Written confirmation of the corrective action taken will be supplied to the Company within 10 days following receipt of notice of the violation by the customer. Failure of the customer to comply with these requirements shall result in suspension of the customer's service until the customer complies with the provision of this Tariff.

LINE/TRUNK HUNTING SERVICE

*Jan W. Jewell* SECRETARY

RATES

| <u>Standard Hunting Service</u> | <u>Monthly<br/>Rate</u> |
|---------------------------------|-------------------------|
| Per line/trunk                  | \$6.00                  |

CONDITIONS

1. This is an optional arrangement available to customers with two or more individual line or trunk services. Where facilities permit, such lines/trunks will be arranged so that incoming calls to a busy line/trunk will overflow to other available lines/trunks for that customer.
2. The rate for each individual line/trunk arranged for Standard Hunting Service is in addition to the regular access line/trunk rates.
3. The nonrecurring charge applies for business customers to establish, change to or from or to rearrange Standard Hunting Service, except when changing from series to multiline or vice versa.
4. The above rates and charges are for each access line/trunk arranged for Standard Hunting Service. They are applicable to all but the last line so arranged.
5. Standard Hunting Services are available only to customers who are served from a central office equipped to provide such services.
6. From time to time, the Company may offer promotional programs where the nonrecurring charges may be waived.

DEC 28 '00

JAN 1 - '01

BUSY VERIFICATION/INTERRUPT SERVICE

*Jean W. Jewell* SECRETARY

RATES

|                           | <u>Rate</u> |
|---------------------------|-------------|
| Verification, per request | \$ 1.50     |
| Interrupt, per request    | 3.00        |

DESCRIPTION

Customers may obtain assistance in determining if a called line is in use (herein called verification) or in interrupting a conversation in progress (herein called interrupt) by calling the "0" operator.

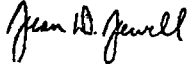

CONDITIONS

1. A verification charge applies each time the operator verifies a called line and hears voice communication.
2. An interrupt charge applies each time an operator interrupts a conversation that is in progress on the called line.
3. Verification and interrupt service is furnished where and to the extent that the facilities permit.
4. The customer shall indemnify and save the Company harmless against all claims that may arise from either party to the interrupted call or any person.
5. If an operator both verifies the condition of the line and interrupts conversation on the same request, the interrupt charge only applies.
6. The charge for interrupt applies whenever the operator interrupts the conversation even though one or the other parties interrupted refuses to terminate the conversation in progress.
7. Charges for verify/interrupt service may be billed to a calling card, special billing number or third number. Charges may not be billed on a collect basis.
8. The charges for verify/interrupt service are in addition to any applicable rates, i.e., operator assistance charges or calling card message charges. Time-of-day discounts or the unused Directory Assistance allowance will not be applied against these charges.

DEC 28 '00

JAN 1 - '01

BUSY VERIFICATION/INTERRUPT SERVICE

 SECRETARY

CONDITIONS (Cont'd)

9. If, as a result of an interrupt, the line is cleared, and the calling party's request, the operator completes the call, the applicable operator assistance charges, and/or calling card message charges apply in addition to the interrupt charges.
10. The verify charge will not apply if the number verified is not in use and the operator completes the call. Applicable operator assistance charges apply.
11. No verification or interrupt charge will apply if the requesting customer identifies that the call is from an authorized Public Emergency Agency. An authorized Public Emergency Agency is defined as a government agency which is operated by the Federal, State or local government and has the capability and legal authority to provide prompt aid to the public in emergency situations.
12. No charge will apply when the operator encounters a trouble condition or has reason to believe a trouble condition exists.
13. Verification and interrupt service is furnished to coin and non-coin customers.
14. Person-to-Person service is not offered.

DEC 28 '00

JAN 1 - '01

MESSAGE RESTRICTION - LOCAL EXCHANGE SERVICE *Jan A. Jewell* SECRETARY

RATES

|                                   | <u>Monthly<br/>Rate</u> |
|-----------------------------------|-------------------------|
| Long Distance Message Restriction | \$2.00                  |
| 0+ Blocking                       | \$1.00                  |
| Blocking for 10XXX1+/10XXX011+    | \$1.00                  |
| 800/900 Blocking                  | No Charge               |

CONDITIONS

1. Long Distance Message Restriction - Local Exchange Service is an arrangement which permits Local Exchange Service line users to dial local service area calls but prevents the origination of long distance calls.
2. Long Distance Message Restriction - Local Exchange Service is provided for use only on individual network access line service and only where the customer has other network access line service on the same premises arranged for unrestricted use of the telecommunications network.
3. The acceptance of collect call messages is not restricted by this arrangement.
4. Blocking for 10XXX1+ / 10XXX011+ prevents 10XXX1+ and 10XXX011+ calls from being completed. Blocked calls will be routed to an announcement.
5. Blocking Service is offered subject to the availability of existing central office facilities.
6. Provision of 10XXX1+ / 10XXX011+ Blocking does not alleviate customer responsibility for completed toll calls.
7. Other Toll Restrictions type services are available to customer subscribing to 10XXX1+ / 10XXX011+ Blocking.
8. This service is offered subject to the availability of mechanized operator type services and existing CO facilities. The provision of this service may require some customers to change their existing telephone number.
9. The Company reserves the right to restrict the screening classes or combinations of classes to standard arrangements.
10. Message Restriction-Local Exchange Services are available only to customers who are served from a central office equipped to provide such services.

DEC 28 '00

JAN 1 - '01

BASIC EMERGENCY 911 SERVICE

*Jean A. Jewell* SECRETARY

DESCRIPTION

1. 911 Emergency Communications System Service (911 Service) is a telephone exchange service whereby a Public Safety Answering point (PSAP) designated by the customer may receive calls signaled to the telephone number 911. The service provides the capability to answer emergency calls originated by persons within the serving area who dial 911.
2. 911 Service provides for routing 911 calls originated by telephone with given central office prefix codes to a single PSAP vial the switched network to dedicated or non-dedicated access lines. The choice of the service arrangement is the customer's, subject to availability of facilities.
3. The 911 Code feature permits the public to dial 911 and have the central office route the call to the PSAP.
4. The dedicated access line option provides a circuit from the originating end office to the PSAP. The following optional features are available where operating conditions permit:

Forced Disconnect

Enables a PSAP attendant to terminate, at any time, an existing 911 call regardless of the action of the calling party. Forced disconnect prevents the dedicated facilities (lines or trunks) to the PASP from being tied up by calling parties who remain off-hook. After the PSAP attendant releases from a 911 call, the dedicated 911 trunk or line facility to the PSAP is automatically released and made available for other 911 calls. Forced disconnect may be used to disconnect any established 911 call connection to a PSAP.

Idle Tone

A reorder tone at 120 IPM is a tone that is given to alert the Public Safety Answering Point (PSAP) attendance that the originating party has gone off-hook after the 911 call was established to the Company but before the PSAP attendant answered the phone. This feature allows the PSAP attendant to distinguish between calls that are abandoned before they are answered and calls where the calling party is unable to speak for some reason.

DEC 28 '00

JAN 1 - '01

BASIC EMERGENCY 911 SERVICE (Cont'd)

*Jean H. Jewell* SECRETARY

DESCRIPTION (Cont'd)

Switchhook Status

This is a feature which automatically provides a visual indication of the switchhook status of the originating station after the PSAP attendant answers the call. It provides the visual indications, in connection with the customer's terminal equipment, to allow the PSAP attendant to know whether a 911 call put on hold is still on hold or has disconnected. Additionally, a control circuit is required in connection with the customer provided visual lamp indicator.

Called Party Hold

Allows the PSAP attendant to hold the connection established for a station from which a 911 call was originated, regardless of calling party actions. Called party hold enables the call to be traced to determine the calling party location. Actions by the calling party will not affect the connection being held. The connection is held until the PSAP attendant releases the call or until trunk time-out. Activation of ringback will restart the timing.

Emergency Ringback

Allows the PSAP attendant to ring back a calling station whether the station is on or off hook.

5. Features other than those described in 4. preceding, may be provided on an individual case basis.
6. The non-dedicated access line option forwards the call from an originating end office over the message network to the Public Safety Answering Point (PSAP). No additional features are available with this option.

DEFINITIONS

911 Service Area

The geographical area that contains the service central office and originating end offices in which the 911 customer will have the capability to respond to all 911 calls and initiate appropriate responses.

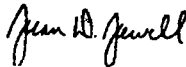

Avoidance

Provides the routing of a facility to avoid a customer specified geographic area.

DEC 28 '00

JAN 1 - '01

BASIC EMERGENCY 911 SERVICE (Cont'd)

 SECRETARY

DEFINITIONS (Cont'd)

Called Party Hold (CPH)

A feature of 911 Service that enables a Public Safety Answering Point (PSAP) attendant to retain control of an incoming 911 call connection even if the calling party hangs up.

Customer Location

Location of the primary Public Safety Answering Point.

Diversity

Provides separate facility paths to avoid routing all of a customer's traffic through a single transmission facility.

Emergency Ringback

A feature that allows the PSAP attendant to call or ring the line of an incoming 911 call that appears to have gone on-hook (hungup). CPH is required for this feature.

Forced Disconnect

A feature that allows the PSAP attendant to release a connection regardless of the action of the calling party. This prevents blockage of the incoming 911 lines service the PSAP.

Idle Tone Application

A feature that allows the PSAP attendant to distinguish between calls abandoned before they are answered and instances in which the calling party is unable to speak for some reason. If the call is abandoned, a distinct tone is heard. If the caller is still on the line but unable to speak, no tone is heard.

Meet Point

A predetermined point in the provision of a circuit, between two or more operating companies, i.e., where the Company provides a portion of the facilities to a point and another telephone company continues in order to provide end-to-end service to a customer.

Originating End Office

A central office that serves the caller originating a 911 call.

DEC 28 '00

JAN 1 - '01

BASIC EMERGENCY 911 SERVICE (Cont'd)

*John D. Jewell* SECRETARY

DEFINITIONS (Cont'd)

Public Safety Answering Point (PSAP)

An answering location of 911 calls originated within a given service area. PSAPs are designated as primary and secondary. The primary PSAP receives all calls directly from the public; secondary PSAPs only receive calls from a primary PSAP on a transfer or relay basis.

Serving Central Office

The central office from which a primary PSAP is served.

Switchhook Status

A feature that provides the PSAP attendant audible and visual signals indicating whether a 911 call put on hold is still on hold or has disconnected.

REGULATIONS

1. The 911 customer may be a municipality or other state or local government unit, or an authorized agent of one or more of these units. The customer must be legally authorized to subscribe to the service and respond to public emergency calls from the central office service areas arranged for 911 calling.
2. If Company facilities are not available to provide 911 service, modifications may be made to our facilities as necessary on an individual case basis. The actual cost of these modifications will be charged to the customer in addition to the published rates.
3. In a dedicated access line arrangement, the customer will be required to purchase exchange lines from the originating end office to the Public Safety Answering Point (PSAP) and when necessary, applicable mileage rates from the originating end office to the service central office, to allow the direct routing of end office calls over those lines.

For the non-dedicated access line option, the customer must purchase exchange lines from the serving central office, as noted below, for receipt of calls forwarded from each remote end office.

- A. A combination of dedicated and non-dedicated lines may be provided to one PSAP, operating conditions permitting, but only one option is available per originating end office.
- B. The customer must subscribe to enough lines at the PSAP to receive 911 calls on lines other than its administrative lines. In no case shall there be less than two 911 lines per originating end office.

DEC 28 '00

JAN 1 - '01

BASIC EMERGENCY 911 SERVICE (Cont'd)

*Jean M. Jewell* SECRETARY

REGULATIONS (Cont'd)

4. The mileage rates per mile apply to the airline distance measured between the service wire center through which the service is provided. The airline miles between serving wire centers are measured using the V and H coordinates method, as set forth in the Exchange Carrier Association Tariff F.C.C. No. 4
5. All general rules and regulations contained in other tariff/catalog sections of this Company apply, as appropriate, to the provision of 911 Emergency Service.
6. 911 are the only digits which may be used as an abbreviated emergency telephone number.
7. the 911 emergency telephone number may not be used as a replacement for general telephone service. The public safety agencies will subscribe to other exchange service as provided in other tariff/catalog Sections of this Company to satisfy telecommunicating needs other than receipt of 911 calls.
8. The service is furnished to the customer for the purpose of receiving reports of emergencies from the public.
9. 911 Service is classified as business service and is arranged for one-way incoming service to the appropriate PSAP.
10. 911 Service is provided solely for the benefit of the customer operating the Public Safety Answering Point (PSAP). The provision of 911 Service by the Company shall not be interpreted, construed, or regarded, either expressly or implied, as being the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.
11. 911 service will not be suspended or disconnected for non-payment without a ninety day written notification to the customer, the company, and the State of Idaho, Executive Department, Emergency Management Division.
12. The Company will furnish facilities to enable the customer's personnel to respond to 911 calls, but will not answer and forward those calls.
13. The Company shall not be responsible for providing 911 Service to less than an entire central office (switching entity) and will only provide one type of 911 Service within a given central office, i.e., the 911 Service will not be activated in only one of two or more prefixes in the same central office.

DEC 28 '00

JAN 1 - '01

BASIC EMERGENCY 911 SERVICE (Cont'd)

*John H. Jewell* SECRETARY

REGULATIONS (Cont'd)

14. The rates and charges for 911 Service include only the usual inspection or monitoring of facilities, which are done on a routine basis, to discover errors, defects and malfunctions in the service.

The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its specific use. The customer shall promptly notify the Company in the event the system is not functioning properly. Any additional testing requested by the customer will be handled and priced on an individual case basis.

15. In any central office where 911 Service has been activated, the Company will provide the same level of reliability and quality as it provides for all other telephone services in that central office.
16. The customer will be responsible for making arrangements to handle all 911 calls that originate from telephones served by originating end offices in the 911 service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
17. Application for 911 Service must be executed in writing by each customer. In addition, the customer must submit a copy of the State of Idaho approved Emergency Telephone System Plan. If application for service is made by an agency, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer.
18. The customer must furnish the Company its agreement in writing to the following terms and conditions:
- (A) All 911 calls will be answered on a twenty-four hour day, seven-day week basis.
  - (B) The customer has responsibility for dispatching the appropriate emergency service vehicles within the 911 service area, or will undertake to transfer all dispatching such services, to the extent that such services are reasonably available.
  - (C) The customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the Public Safety Answering Point (PSAP) by calling parties. Furthermore, a written assurance is required from all agencies indicating their concurrence in the arrangement.

DEC 28 '00

JAN 1 - '01

BASIC EMERGENCY 911 SERVICE (Cont'd) *John D. Jewell* SECRETARY

REGULATIONS (Cont'd)

- (D) The customer will subscribe to local exchange service, and where necessary, private line service, at the PSAP location for administrative purposes, for placing outgoing calls, for transferring or dispatching Cambridge Telephone Company 911 calls, and for receiving all other calls.
- (E) The customer will maintain an adequate number of circuits to handle the traffic volume.
- 19. The calling party will not be charged for calls placed to the 911 number. Any appropriate toll charges associated with 911 calls will be billed to the 911 customer.
- 20. Neither the calling party nor the 911 customer is billed for message unit charges associated with measured service or calls placed from a coin phone.
- 21. It is the customer's obligation to assure that any customer provided terminal equipment is compatible with 911 service and features.
- 22. The Company may refuse to provide certain features if, in the Company's judgment, they are not compatible with the customer's terminal equipment.
- 23. Trunk conditioning charges may apply under certain circumstances. For example, if there is a Public Safety Answering Point (PSAP) installed to back up the primary PSAP, the charges could apply, on an individual case basis.
- 24. Where facilities permit, the customer can request diversification and redundancy, of any or all interoffice and/or local loop facility routes. Additional charges for such facilities, or the construction and provisioning thereof, will be the responsibility of the customer and will be assessed on an Individual Case Basis.
- 25. Where facilities permit, the customer may request Avoidance of any point in the interoffice facilities and/or local loop facilities and/or the central offices service that 911 system. Additional charges for such facilities, or the construction and provisioning thereof, will be the responsibility of the customer and will be assessed on an Individual Case Basis.
- 26. Basic Emergency 911 Services are available only to customers who are served from a central office equipped to provide such services.
